(2) “Oil” includes crude oil and field condensate combined.

MESSAGE TO SHAREHOLDERS

Energy related commodity prices continued to rise in the first quarter of 2022 as the global economy set the stage for a recovery in energy demand as the world began to ease away from lockdowns and business interruptions that were experienced in 2020 and 2021 as a result of the COVID-19 pandemic. In contrast, the pace of energy supply growth slowed with the massive reductions in capital investment on major energy projects around the world, creating a tight supply-to-demand balance.

Kelt opportunistically bucked the trend by increasing capital expenditures on its large inventory of high rate of return drilling opportunities and was able to take advantage of rising oil and gas prices by growing its production base significantly. During this period of strong commodity prices, Kelt is accelerating the development of high rate of return drilling opportunities in all three of its operating divisions. Kelt is targeting per share growth in production, reserves, and funds from operations and at the same time, maintaining a strong financial position. The Company continues to believe that this strategy will create the most value for Kelt shareholders based on the nature of its asset base and long-term objectives.

Kelt's average production for the three months ended March 31, 2022 was 27,413 BOE per day, up 45% from average production of 18,860 BOE per day during the first quarter of 2021. Quarter over quarter, Kelt recorded production growth of 6% from average production of 25,815 BOE per day during the fourth quarter of 2021. Production for the three months ended March 31, 2022 was weighted 37% oil and NGLs and 63% gas.

Kelt's realized average oil price during the first quarter of 2022 was $113.60 per barrel, up 68% from $67.47 per barrel in the first quarter of 2021. The realized average NGLs price during the first quarter of 2022 was $63.90 per barrel, up 86% from $34.28 per barrel in the same quarter of 2021. Kelt's realized average gas price for the first quarter of 2022 was $5.41 per Mcf, up 44% from $3.77 per Mcf in the corresponding quarter of the previous year.

For the three months ended March 31, 2022, revenue from P&NG sales was $138.5 million and adjusted funds from operations was $74.2 million ($0.38 per share, diluted), compared to $59.8 million and $27.5 million ($0.14 per share, diluted) respectively, in the first quarter of 2021. Net income rose by 276% to $10.7 million during the first quarter of 2022 compared to $2.9 million for the three-month period ended March 31, 2021. At March 31, 2022, the Company had net debt of $34.7 million, compared to a net surplus of $24.3 million at March 31, 2021.

Capital expenditures, net of A&D, incurred during the three months ended March 31, 2022 were $83.7 million. During the first quarter of 2022, the Company spent $53.2 million on drill and complete operations and $30.3 million on equipment, facilities and pipelines.

In the Pouce Coupe/Progress/Spirit River Division, Kelt completed two high deliverability Montney gas wells during the first quarter of 2022. The Company has an inventory of 30 additional potential locations on its high deliverability gas land block at Pouce Coupe West. The Company commenced construction of a pipeline from its Pouce Coupe West block that has recently been commissioned providing Kelt with access to additional gas processing at third party facilities in the area.

The Company commenced drilling the first well of a four-well pad drilling program in the oilier part of its central Pouce Coupe land block. These Montney wells are expected to be completed and brought on production during the third quarter of 2022.

At Progress, Kelt drilled and completed two wells (75% working interest) from the same pad in the Charlie Lake formation, targeting the Lower Charlie Lake. These wells are expected to be put on production in the second quarter of 2022.

In the Wembley/Pipestone Division, Kelt completed two DUCs that were previously drilled in 2021. In addition, the Company drilled seven new Montney wells and completed three of these wells during the first quarter. Completion of the remaining four wells were pushed to the second quarter when the Company expects to have better access to water.

In the contiguous south-eastern part of Kelt's large land block at Wembley/Pipestone, the Company has now completed its Phase Two pipeline construction and is in the process of bringing wells in the area on production, including the 00/09-04-073-06W6 well on the eastern boundary of Kelt's lands.

Kelt's board of directors has approved an increase to the Company's capital expenditure program for 2022. Kelt expects to spend $265.0 million in 2022, up 6% from its previous forecast of $250.0 million. The increased spending reflects the drilling and completion of a new Montney well at Wembley/Pipestone, incremental gas compression facilities at Pouce Coupe required to accommodate expected growth in gas production and adjustments to the remaining capital program for the year to account for inflation of approximately 5%.

The Company has increased its commodity price forecast for 2022 to account for the higher prices realized to date and stronger prices expected for the balance of the year. As a result, Kelt's forecasted adjusted funds from operations for 2022 has increased by 13% to an estimated $340.0 million compared to its previous estimate of $300.0 million. Kelt will continue to maintain its strong financial position. At December 31, 2022, the Company expects to have a net surplus position of $50.0 million compared to its previous estimate of $19.0 million. Kelt will re-evaluate its 2022 guidance after the second quarter is complete and has services in place to accelerate additional drilling opportunities from its large inventory of high rate of return wells.

The following table summarizes the percentage changes to 2022 guidance compared to the previous forecast and historical changes to 2022 guidance since the Company's original forecast was prepared in November 2021:

	2022 Guidance (Nov/21)	2022 Guidance (Mar/22)	**2022 Guidance (current)**	Percent Change
Commodity Prices				
WTI Crude Oil (USD/bbl)	72.00	85.00	**90.00**	6%
NYMEX Natural Gas (USD/MMBtu)	4.10	4.15	**5.35**	29%
Exchange Rate (CAD/USD)	1.227	1.250	**1.255**	–

Oil & NGLs (bbls/d)	11,450	11,580	**11,580**	–
Gas (MMcf/d)	111.30	116.52	**116.52**	–
Combined (BOE/d)	30,000	31,000	**31,000**	–
Financial				
P&NG Sales ($MM)	444.7	518.8	**608.2**	17%
Adjusted funds from operations ($MM)	245.0	300.0	**340.0**	13%
AFFO per share, diluted ($)	1.28	1.55	**1.74**	12%
Capital expenditures, net of A&D ($MM)	210.0	250.0	**265.0**	6%
Net debt (surplus) ($MM)	(23.8)	(19.0)	**(50.0)**	163%

Kelt remains optimistic that commodity prices will continue to be strong during the balance of 2022 and leading into 2023, providing shareholders with high rates of return on capital deployed. The Company will continue to reinvest cash flow into development of its high quality Montney and Charlie Lake pools.

Management looks forward to updating shareholders with 2022 second quarter results on or about August 4, 2022.

On behalf of the Board of Directors,

[signed]

David J. Wilson
President and Chief Executive Officer
May 5, 2022

MANAGEMENT'S DISCUSSION & ANALYSIS

Kelt Exploration Ltd. ("Kelt" or the "Company") is an oil and gas company based in Calgary, Alberta, focused on the exploration, development and production of crude oil and natural gas resources in Western Canada. Kelt's business plan is for long-term profitable growth by implementing a full cycle exploration and development program, with emphasis on low-cost land accumulation with the potential for high rates of return on capital invested. Kelt has an active exploration and development drilling program that it may complement with acquisitions and dispositions that optimize its asset base.

The Company was incorporated under the *Business Corporations Act* (Alberta) on October 11, 2012. Kelt's assets are comprised of three core operating divisions, namely: (1) Wembley/Pipestone in Alberta; (2) Pouce Coupe/Progress/Spirit River in Alberta; and (3) Oak/Flatrock in British Columbia. The Company's British Columbia assets are operated by Kelt Exploration (LNG) Ltd. ("Kelt LNG"), a wholly owned subsidiary of Kelt. The head office of the Company is located at Suite 300, 311 - 6th Avenue S.W., Calgary, Alberta T2P 3H2. The Company's common shares are listed on the Toronto Stock Exchange ("TSX") under the symbol "KEL". Additional information relating to Kelt can be found on SEDAR at www.sedar.com.

This Management's Discussion and Analysis ("MD&A") is dated May 5, 2022 and should be read in conjunction with the Company's unaudited condensed consolidated interim financial statements and related notes as at and for the three months ended March 31, 2022 and its audited consolidated annual financial statements and MD&A as at and for the year ended December 31, 2021. The accompanying financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"). The Company's Board of Directors approved and authorized the consolidated interim financial statements for issue on May 5, 2022.

GENERAL ADVISORY

This MD&A contains certain specified financial measures consisting of non-GAAP measures, capital management measures, and supplementary financial measures. These non-GAAP and other financial measures include "adjusted funds from operations", "annualized quarterly adjusted funds from operations", "adjusted funds from operations per common share", "petroleum and natural gas sales before marketing revenue" "petroleum and natural gas sales after cost of purchases", "operating netback", "net debt (surplus)", "net realized prices", "net debt (surplus) to annualized quarterly adjusted funds from operations ratio" and "Net Asset Value" which do not have standardized meanings prescribed by generally accepted accounting principles ("GAAP") and therefore may not be comparable to similar measures presented by other companies where similar terminology is used. For further information and reconciliation to Canadian generally accepted accounting principles "GAAP" measures, see "*Non-GAAP and Other Financial Measures*" in this MD&A.

This MD&A contains forward-looking information within the meaning of applicable Canadian securities laws. The use of and of the words "will", "expects", "believe", "plans", potential", "forecasts" and similar expressions are intended to identify forward-looking statements. Such forward-looking information is based upon certain expectations and assumptions and actual results may differ materially from those expressed or implied by such forward-looking information. For further information regarding the forward-looking information contained herein, including the assumptions underlying such forward-looking information, see *"Advisories Regarding Forward-Looking Statements"* in this MD&A.

BASIS OF PRESENTATION

All dollar amounts are referenced in thousands of Canadian dollars, except when noted otherwise. This MD&A contains various references to the abbreviation BOE which means barrels of oil equivalent. Where amounts are expressed on a BOE basis, natural gas volumes have been converted to oil equivalence at six thousand cubic feet per barrel and sulphur volumes have been converted to oil equivalence at 0.6 long tons per barrel. The term BOE may be misleading, particularly if used in isolation. A BOE conversion ratio of six thousand cubic feet per barrel is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead and is significantly different than the value ratio based on the current price of crude oil and natural gas. This conversion factor is an industry accepted norm and is not based on either energy content or current prices. Such abbreviation may be misleading, particularly if used in isolation. References to "oil" in this MD&A include crude oil and

field condensate. References to “natural gas liquids” or “NGLs” include pentane, butane, propane, and ethane. References to “liquids” include field condensate and NGLs. References to “gas” include natural gas and sulphur.

FINANCIAL AND OPERATING SUMMARY

(1) Refer to advisories regarding Non-GAAP and Other Financial Measures.

In the first quarter of 2022, Kelt’s financial and operating results are highlighted by the following:

- **Production** – Average production of 27,413 BOE per day (37% oil/NGLs) increased by 6% from 25,815 BOE per day (38% oil/NGLs) in the fourth quarter of 2021 and increased 45% from 18,860 BOE per day in the first quarter of 2021. During the first quarter of 2022 the Company brought on production two wells at Pouce Coupe, two wells at Progress and two wells at Wembley.
- **Petroleum and natural gas sales –** For the three months ended March 31, 2022, petroleum and natural gas sales were $138.4 million, an increase of 15% from the fourth quarter of 2021 and an increase of 131% from the first quarter of 2021. Kelt’s combined net realized price before financial instruments of $55.09 per BOE increased 10% from the fourth quarter of 2021 and increased 61% from the first quarter of 2021.
- **Operating netback** – Kelt’s operating netback was $31.26 per BOE for the quarter ended March 31, 2022, up 77% from $17.67 per BOE during the quarter ended March 31, 2021 and was driven primarily by an increase in petroleum and natural gas prices in 2022.
- **Cash provided by operating activities and adjusted funds from operations** – Cash provided by operating activities increased to $65.6 million in the first quarter of 2022 compared to $26.6 million in the first quarter of 2021. Adjusted funds from operations of $74.2 million during the three months ended March 31, 2022 ($0.38 per share, diluted) increased 170% from the first quarter of 2021. The increase in both cash provided by operating activities and adjusted funds from operations was driven by higher petroleum and natural gas sales in 2022.
- **Net income** – Kelt reported net income of $10.7 million ($0.06 per common share, diluted) for the three months ended March 31, 2022, compared to net income of $2.9 million ($0.02 per common share, diluted) in the comparative period of 2021. Kelt’s net income for the quarter ended March 31, 2022 included $28.0 million in unrealized losses on derivative financial instruments as a result of rising oil and natural gas prices.
- **Capital investments** – Capital expenditures, before A&D, was $83.7 million in the first quarter of 2022 which included the drilling of 7.8 net wells and completion of 8.5 net wells. Facilities, pipeline and well equipment spend of $30.3 million related primarily to well equipment and pipeline construction work.
- **Liquidity** – The Company ended the quarter with net debt of $34.7 million (0.1 times annualized quarterly adjusted

funds from operations), comprised primarily of its working capital deficiency as at March 31, 2022.

PRODUCTION

	Three months ended March 31		
(CA$ thousands, except as otherwise indicated)	**2022**	2021	%
Average daily production:			
Oil (bbls/d) [1]	**6,081**	3,972	53
NGLs (bbls/d)	**4,012**	3,429	17
Gas (mcf/d)	**103,919**	68,752	51
Combined (BOE/d)	**27,413**	18,860	45
Oil and NGLs weighting	**37%**	39%	-5

(1) "Oil" includes crude oil and field condensate combined

Average production for the three months ended March 31, 2022 increased 45% compared to the same period in 2021 and increased 6% compared to the average production during the fourth quarter of 2021.

Oil and NGLs weighting of total production decreased slightly to 37% during the first quarter of 2022 compared to 39% in the comparable period of 2021, primarily due to a slightly higher gas weighting from the wells brought on production in 2021 and 2022.

PETROLEUM AND NATURAL GAS SALES ("P&NG SALES")

	Three months ended March 31		
(CA$ thousands, except as otherwise indicated)	**2022**	2021	%
P&NG Sales before royalties and financial instruments			
Oil [5]	**62,171**	24,039	159
NGLs	**23,072**	10,579	118
Gas	**50,655**	23,301	117
P&NG Sales before marketing revenue [4]	**135,898**	57,919	135
Marketing revenue [2]	**2,548**	1,916	33
P&NG Sales [1]	**138,446**	59,835	131
Cost of purchases [3]	**(2,548)**	(1,834)	39
P&NG Sales after cost of purchases [3] [4]	**135,898**	58,001	134
Net realized price ($/BOE) [4]	**55.09**	34.17	61

(1) Sales of third-party volumes related to the Company's oil blending operations and natural gas activities.

(2) Cost of third-party volumes purchased for use and resale in the Company's oil blending operations and natural gas activities.

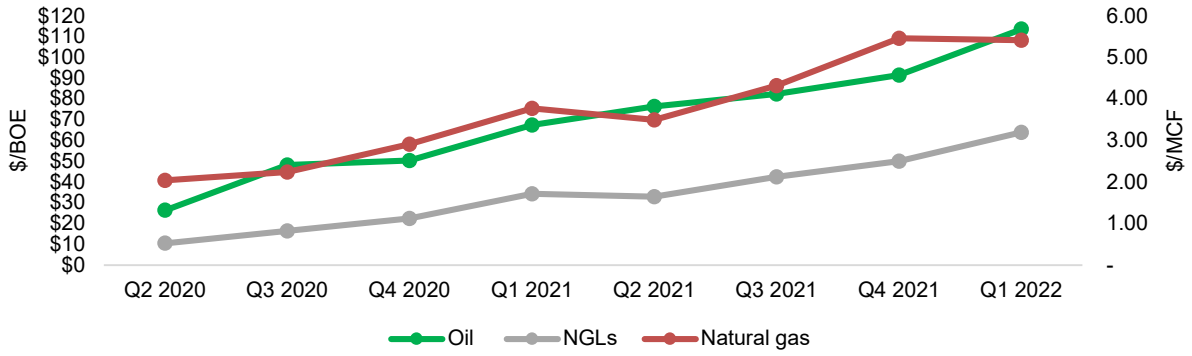
(3) P&NG sales after cost of purchases includes petroleum and natural gas sales, net of the cost of the third-party volumes purchased.

(4) Net realized price ($/BOE) equals P&NG sales after cost of purchases divided by total production. Refer to additional information under the heading of "Non-GAAP and Other Financial Measures".

(5) "Oil" includes crude oil and field condensate combined

Petroleum and natural gas sales for the first quarter of 2022 was $138.4 million, up 131% from the first quarter of 2021. The increase is due to a 61% increase in average realized prices in the first quarter of 2022 compared to the first quarter of 2021 and a 45% increase in production.

Kelt Quarterly Realized Prices (1)



(1) Net realized prices are calculated based on Petroleum and Natural Gas Sales, less the cost of purchases of third-party volumes and reflect Kelt's realized commodity prices plus the net benefit of oil blending and natural gas marketing activities. Refer to additional information under the heading of "Non-GAAP and Other Financial Measures".

Combined Net Realized Price

Kelt's combined average realized price increased 61% to $55.09 per BOE in the first quarter of 2022 versus the comparable period in 2021. The increase in the average realized price was primarily due to an increase in benchmark commodity prices in 2022.

Oil prices

Benchmark WTI crude oil prices increased 64% for the quarter ended March 31, 2022 compared to the first quarter of 2021. The increase was primarily due to continued production supply curtailments from OPEC+ countries, reduced capital directed towards production growth in non-OPEC nations, and a significant reduction of global crude inventories as crude oil demand increased as countries exited COVID-19 pandemic lockdowns.

NGL prices

NGLs prices are impacted both by benchmark WTI prices, as well as localized market supply and demand issues.

For the three months ended March 31, 2022, Kelt's realized NGLs price increased 86% compared to the same period in 2021, primarily due to an increase in benchmark WTI prices and regional improvements in NGLs prices.

Natural gas prices

Kelt's realized natural gas price increased by 44% to $5.41 per MCF in the first quarter of 2022 compared to the first quarter of 2021. Canadian natural gas benchmark prices increased in 2022 compared to 2021 due to a combination of increased Alberta and North American natural gas demand and higher pipeline and LNG exports when compared to historical five year averages. In the first quarter of 2022, Kelt's natural gas sold outside of AECO 5A and Station 2 indices was approximately 26% of total natural gas sales compared to approximately 37% in the first quarter of 2021.

RISK MANAGEMENT AND HEDGING ACTIVITIES

The Company may enter fixed price contracts and derivative financial instruments for commodity prices, currency exchange and interest rates to secure future cash flows or to protect a desired level of capital spending. Fair value accounting for derivative financial instruments may cause significant fluctuations in the reported amounts of derivative financial instrument assets and liabilities and the resultant magnitude of unrealized gains and losses.

The table below summarizes realized and unrealized gains (losses) on risk management contracts:

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Realized loss	**(12,659)**	(1,859)	581
Unrealized loss	**(27,986)**	(2,945)	850
Loss on derivative financial instruments	**(40,645)**	(4,804)	746
$ per BOE	**(16.47)**	(2.84)	480

Commodity price risk

Inherent to the business of producing oil and gas, the Company's cash provided by operating activities is subject to commodity price risk. Commodity price risk is the risk that future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices are impacted by world economic events that dictate the levels of supply and demand as well as the currency exchange rate relationship between the Canadian and US dollar.

As at May 5, 2022, the following commodity price risk management contracts are outstanding:

Contract Type [(1)(2)(3)]	Notional Volume	Contract Price	Remaining Term
Natural gas derivative contracts			
NYMEX fixed price swap	45,000 MMBtu/d	CAD$5.58/MMBtu	Apr – Oct 2022
NYMEX fixed price swap	10,000 MMBtu/d	CAD$10.15/MMBtu	Nov – Mar 2023

Contract Type [1][2][3]	Notional Volume	Contract Price	Remaining Term
Crude oil derivative contracts			
WTI-MSW basis swap	1,500 bbl/d	WTI less USD$4.75 per bbl	Apr – Dec 2022
WTI fixed price swap	3,000 bbl/d	CAD$95.67/bbl	Apr – Jun 2022

(1) West Texas Intermediate ("WTI")
(2) NYMEX Henry Hub ("NYMEX")
(3) Mixed Sweet Blend ("MSW")

In addition to the financial derivative contracts above, the Company has entered into the following sales contracts for physical delivery:

Contract Type [1][2]	Notional Volume	Contract Price	Remaining Term
Natural gas physical delivery contracts			
AECO (physical) fixed price	14,833 GJ/d	CAD$5.11/GJ	Apr 2022
AECO (physical) fixed price	15,000 GJ/d	CAD$5.02/GJ	May 2022
AECO (physical) fixed price	15,000 GJ/d	CAD$5.92/GJ	Jun 2022
AECO (physical) fixed price	15,000 GJ/d	CAD$5.94/GJ	Jul 2022
AECO (physical) fixed price	15,000 GJ/d	CAD$6.18/GJ	Aug 2022
AECO (physical) fixed price	7,500 GJ/d	CAD$6.55/GJ	Sep 2022
Crude oil physical delivery contracts			
WTI-MSW (physical) basis differential	1,000 bbl/d	WTI less USD$3.00 per bbl	Apr – Jun 2022

(1) West Texas Intermediate ("WTI")
(2) Mixed Sweet Blend ("MSW")

Interest rate risk

The Company's Credit Facility is subject to a floating interest rate and is exposed to interest rate risk. As of May 5, 2022, the Company has no bank debt and no interest rate risk management contracts outstanding.

Foreign exchange risk

Kelt is exposed to fluctuations of the Canadian to U.S. dollar exchange rate given realized pricing is directly influenced by U.S. dollar denominated benchmark pricing and from exposure from certain U.S. dollar denominated natural gas marketing arrangements. As of May 5, 2022, there are no foreign exchange risk management contracts outstanding.

ROYALTIES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Royalties	**14,854**	4,577	225
Average royalty rate [1]	**10.9%**	7.9%	38
$ per BOE	**6.02**	2.70	123

(1) Average royalty rate is calculated based on total royalties as a percentage of "P&NG Sales, before marketing" which excludes sales related to the sale of third party production volumes used in oil blending operations (see table under the heading of *"Petroleum and Natural Gas Sales"*).

Kelt's average royalty rate was 10.9% during the first quarter of 2022, compared to 7.9% during the first quarter of 2021. The increase in the 2022 royalty rate was primarily due to higher commodity prices which is offset by low royalties on new wells in both BC and Alberta.

PRODUCTION EXPENSES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Production expense	**23,730**	16,046	48
$ per BOE	**9.62**	9.45	2

The Company incurred production expenses of $23.7 million during the first three months of 2022, up 48% from the comparative quarter. Production expenses averaged $9.62 per BOE during the first three months of 2022, compared to $9.45 per BOE in the same period in 2021. Production expense per BOE for the three months ended March 31, 2022 increased slightly from 2021 primarily due to higher utility and maintenance costs in the first quarter of 2022.

TRANSPORTATION EXPENSES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Transportation expense [(1)]	**7,558**	5,515	37
$ per BOE	**3.06**	3.25	-6

(1) Pipeline tariffs are classified as transportation expenses when the Company has firm commitments or contractual arrangements on the pipeline. Pipeline tariffs may also be incurred indirectly by way of deduction from the base price paid by the purchasers of the Company's oil, NGLs and gas sales. In the latter case, and in the absence of a firm contractual obligation on the pipeline, the pipeline tariffs are presented as a reduction of revenue rather than as transportation expense.

On a per BOE basis, transportation expense decreased 6% in the first quarter of 2022 compared to the same period in 2021. The decrease in transportation expense was a result of Kelt proportionally increasing its exposure to AECO 5A

and Station 2 indices in 2022, which have lower transportation tolls than production sold at other North American markets.

FINANCING EXPENSES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Total interest expense	**300**	44	582
Accretion of decommissioning obligations	**467**	343	36
Total financing expense	**767**	387	98
Interest expense per BOE [(1)]	**0.12**	0.03	300
Average interest rates:			
Bank debt [(2)]	**4.4%**	NA	-

(1) Interest expense used in the calculation of "Interest expense per BOE" includes interest and fees on bank debt and accrued cash interest on convertible debentures.

(2) Average interest rate excludes fees on bank debt which include bank commitment, standby and guarantee letter fees.

The Company drew on its credit facility periodically through the first quarter of 2022 resulting in interest expense of $0.3 million. As at March 31, 2022, there were no amounts drawn on Kelt's credit facility.

Additional information regarding the credit facility is provided under the heading of *"Capital Resources and Liquidity"*.

GENERAL AND ADMINISTRATIVE ("G&A") EXPENSES

The following table summarizes significant components of the Company's G&A expenses:

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Salaries and benefits	**2,913**	2,227	31
Other G&A expenses	**1,519**	940	62
Gross G&A expenses	**4,432**	3,167	40
Overhead recoveries	**(1,868)**	(666)	180
Net G&A expenses	**2,564**	2,501	3
Gross G&A ($ per BOE)	**1.80**	1.87	-4
Net G&A ($ per BOE)	**1.04**	1.47	-29

Net G&A expenses per BOE averaged $1.04 in the first quarter of 2022, a decrease of 29% compared to $1.47 in the first quarter of 2021. The decrease in net G&A per BOE was primarily due to higher overhead recoveries as a result of an increase in capital spend, and an increase in production.

G&A expenses are reported net of overhead recoveries; however, Kelt does not capitalize any direct G&A expenses.

SHARE BASED COMPENSATION ("SBC")

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Stock options	**889**	509	75
Restricted share units ("RSUs")	**215**	238	-10
Total SBC expense	**1,104**	747	48
$ per BOE	**0.45**	0.44	2

The increase in SBC expense during the quarter ended March 31, 2022 compared to the same quarter in 2021 is

primarily due to the higher Black-Scholes value associated with options granted in March 2022.

As at March 31, 2022, stock options and RSUs outstanding represent 7.1% of total shares outstanding (December 31, 2021 – 6.0%).

DEPLETION AND DEPRECIATION

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Depletion and depreciation expense	**29,395**	20,019	47
$ per BOE	**11.91**	11.79	1

Depletion and depreciation expense was $29.4 million for the quarter ended March 31, 2022 compared to $20.0 million in the same quarter in 2021 primarily due to an increase in production. On a per BOE basis, the depletion and depreciation expense per BOE remained consistent in 2022 versus the same period in 2021.

Based on its assessment as of March 31, 2022, the Company determined that there were no potential indicators of impairment for the Alberta CGU and BC CGU and there are no previous impairments available for reversals.

INCOME TAXES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Deferred income tax expense	**4,255**	543	684
Net income before taxes	**14,975**	3,397	341
Effective tax expense rate	**28.4%**	16.0%	78

Kelt's consolidated combined federal and provincial statutory tax rate averaged 23.0% and 23.4% during the three months ended March 31, 2022 and 2021, respectively.

The Company's consolidated tax pools are estimated to be approximately $785.8 million as of March 31, 2022, an increase of 1% from December 31, 2021 as summarized in the table below.

(CA$ thousands, unless otherwise indicated)	Rate	**March 31 2022**	December 31 2021	% change
Canadian oil and gas property expenses (COGPE)	10-15%	**71,266**	73,107	-3
Canadian development expenses (CDE)	30-45%	**163,298**	125,246	30
Canadian exploration expenses (CEE)	100%	**17,006**	22,538	-25
Undepreciated capital cost [(1)] (UCC)	25-37.5%	**212,795**	196,613	8
Share and debt issue costs (SIC/DIC)	5 years	**183**	240	-24
Non-capital losses [(2)] (NCL)	100%	**321,215**	356,439	-10
Estimated tax deductions available, end of period		**785,763**	774,183	1

(1) The majority of the Company's undepreciated capital cost deductions relate to Class 41 assets, which are deductible at a rate of 25-37.5% per year.
(2) The Company's non-capital losses expire in years 2033 to 2041.

ADJUSTED FUNDS FROM OPERATIONS

The following table provides a continuity of income and expenses included in the Company's calculation of operating income and adjusted funds from operations generated during the three month periods ended March 31, 2022 and 2021, respectively.

THREE MONTHS ENDED MARCH 31ST	Amount			$/BOE		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%	**2022**	2021	%
Petroleum and natural gas sales	**138,446**	59,835	131	**56.12**	35.25	59
Cost of purchases	**(2,548)**	(1,834)	39	**(1.03)**	(1.08)	-5
Realized loss on financial instruments (1)	**(12,659)**	(1,859)	581	**(5.13)**	(1.10)	366
Royalties	**(14,854)**	(4,577)	225	**(6.02)**	(2.70)	123
Revenue, after royalties and financial instruments	**108,385**	51,565	110	**43.94**	30.37	45
Production expense	**(23,730)**	(16,046)	48	**(9.62)**	(9.45)	2
Transportation expense	**(7,558)**	(5,515)	37	**(3.06)**	(3.25)	-6
Operating netback (2)	**77,097**	30,004	157	**31.26**	17.67	77
Financing expense (3)	**(300)**	(44)	582	**(0.12)**	(0.03)	300
G&A expense	**(2,564)**	(2,501)	3	**(1.04)**	(1.47)	-29
Realized loss on foreign exchange	**(71)**	(54)	31	**(0.03)**	(0.03)	-
Other income	**7**	46	-85	**-**	0.03	-100
Adjusted funds from operations (2)	**74,169**	27,451	170	**30.07**	16.17	86
Basic ($ per common share) (4)	**0.39**	0.15	160			
Diluted ($ per common share) (4)	**0.38**	0.14	171			
Common shares outstanding (000s):						
Basic, weighted average	**189,383**	188,585	-			
Diluted, weighted average	**193,691**	189,944	2			

(1) Includes realized gains (losses) on commodity price and foreign exchange derivatives.

(2) Refer to advisories regarding *"*Non-GAAP and Other Financial Measures*"*.

(3) Excludes non-cash accretion of decommissioning obligation.

(4) Adjusted funds from operations (3) per common share is calculated on a consistent basis with net income (loss) per common share, using basic and diluted weighted average common shares as determined in accordance with GAAP.

During the three months ended March 31, 2022, adjusted funds from operations increased by 170% to $74.2 million ($0.38 per share, diluted) compared to $27.5 million ($0.14 per share, diluted) during the first quarter ended March 31, 2021. The increase in adjusted funds from operations is primarily attributed to a 157% increase in operating netback.

NET INCOME AND COMPREHENSIVE INCOME

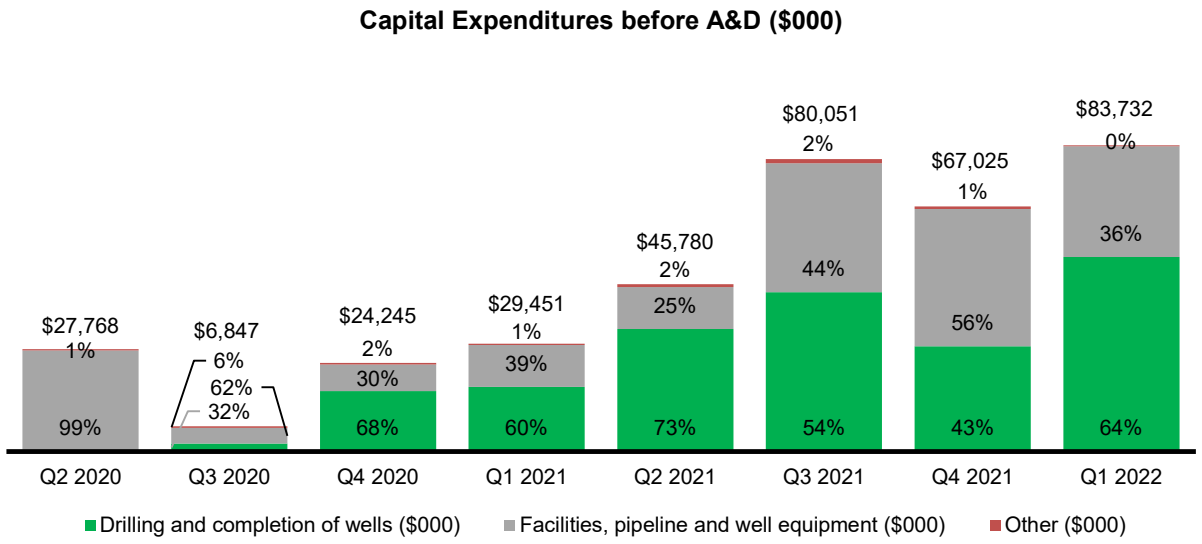
	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Net income and comprehensive income	**10,720**	2,854	276
$ per common share, basic	**0.06**	0.02	200
$ per common share, diluted (1)(2)	**0.06**	0.02	200
$ per BOE	**4.35**	1.68	159
Wtd avg. shares outstanding, basic (000s)	**189,383**	188,585	-
Wtd avg. shares outstanding, diluted (000s) (1)	**193,691**	189,944	2

(1) The Company uses the treasury stock method to determine the dilutive effect of stock options and RSUs. Under this method, only "in-the-money" dilutive instruments impact the calculation of diluted net income per common share.

Kelt reported net income of $10.7 million ($0.06 per common share, diluted) for the three months ended March 31, 2022, compared to net income of $2.9 million in the same three month period of 2021.

INVESTING ACTIVITIES

CAPITAL EXPENDITURES



The Company's capital expenditures, net of acquisitions and dispositions ("A&D"), are summarized in the following table:

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2022**	2021	%
Capital expenditures:			
Lease acquisition and retention	**133**	277	-52
Geological and geophysical	**34**	30	13
Drilling and completion of wells	**53,222**	17,676	201
Facilities, pipeline and well equipment	**30,325**	11,405	166
Corporate assets	**18**	63	-71
Capital expenditures, before A&D [(1)]	**83,732**	29,451	184
Property acquisitions	**2**	(5)	-140
Property dispositions	**(41)**	-	-100
Capital expenditures, net of A&D [(1)]	**83,693**	29,446	184

(1) Refer to advisories regarding "Non-GAAP and Other Financial Measures".

Capital expenditures, before A&D increased 184% in the first quarter of 2022 compared to the same quarter in 2021. Drilling and completion costs of $53.2 million in the first quarter of 2022 included the drilling of 7.8 net wells (7.0 net wells at Wembley/Pipestone and 0.8 net well at Progress) and the completion of 8.5 net wells (4.0 net wells at Wembley/Pipestone, 2.0 net wells at Pouce Coupe, and 1.5 net wells at Progress). Kelt's facility, pipeline and well equipment expenditures were $30.3 million in the first quarter of 2022 and related primarily to well equipment and pipeline construction work.

	Three months ended March 31		
Net wells	**2022**	2021	%
Drilling	**7.8**	6.0	30
Completion	**8.5**	2.0	325

CAPITAL RESOURCES AND LIQUIDITY

Kelt's objective is to maintain a flexible capital structure that provides sufficient liquidity for the Company to meet its obligations when due and to execute on its capital investment program. The Company manages its capital structure in response to changes in economic conditions and the risk characteristics of its underlying oil and natural gas assets.

As of March 31, 2022 the Company had a $100.0 million demand and revolving term facility ("the Credit Facility") with a syndicate of financial institutions. The Credit Facility, which is subject to semi-annual redeterminations, may be extended annually at Kelt's option, subject to lender approval, with a 364 day term-out period if not renewed. Repayments of principal are not required provided that the borrowings under the facility do not exceed the authorized borrowing amount and the Company is in compliance with all covenants, representations and warranties. Covenants include industry standard positive and negative covenants including reporting requirements, permitted indebtedness, permitted risk management activities, permitted encumbrances and other standard business operating covenants. Security is provided for by a $800 million demand debenture with a floating charge over all the Company's assets.

(CA$ thousands, except as otherwise indicated)	**March 31, 2022**	December 31, 2021
Bank debt	**-**	1,150
Accounts payable and accrued liabilities	**99,437**	72,453
Cash and cash equivalents	**(2,300)**	(719)
Accounts receivable and accrued sales	**(61,020)**	(42,584)
Prepaid expenses and deposits	**(1,432)**	(2,080)
Net debt (surplus) [(1)]	**34,685**	28,220
Annualized quarterly adjusted funds from operations [(1)(2)]	**296,676**	272,620
Net debt (surplus) to annualized quarterly adjusted funds from operations ratio [(1)]	**0.1**	0.1

(1) Refer to advisories regarding Capital Management Measures.

(2) Adjusted funds from operations are annualized based on the most recent quarter's adjusted funds from operations.

The Company monitors its capital structure and short-term financing requirements using a net debt (surplus) to annualized quarterly adjusted funds from operations ratio, which is a non-GAAP financial measure. Kelt targets a net debt (surplus) to annualized quarterly adjusted funds from operations ratio of less than 2.0 times.

The Company may adjust its future capital structure and capital expenditures according to market conditions to maintain flexibility to achieve its objectives. To adjust its capital structure, the Company may increase or decrease capital expenditures including acquisitions and dispositions, issue new shares, issue new debt or repay existing debt.

The table below outlines a contractual maturity analysis for Kelt's financial liabilities as at March 31, 2022:

(CA$ thousands)	Within 1 Year	1 to 5 Years	More than 5 Years	**Total**
Accounts payable and accrued liabilities	99,437	-	-	**99,437**
Derivative financial instruments	23,758	-	-	**23,758**
Lease liability	633	271	-	**904**
Total	**123,828**	**271**	**-**	**124,099**

COMMITMENTS

As of March 31, 2022, the Company is committed to future payments under the following agreements:

(CA$ thousands)	2022	2023	2024	2025	2026	Thereafter
Firm processing commitments	12,284	16,862	17,151	15,048	14,797	43,013
Firm transportation commitments	18,912	23,705	20,855	17,527	15,668	21,472
Total annual commitments	**31,196**	**40,567**	**38,006**	**32,575**	**30,465**	**64,485**

SHARE INFORMATION

The Company is authorized to issue an unlimited number of common shares and an unlimited number of preferred shares. As at March 31, 2022 there were 190.3 million common shares issued and outstanding; there are no preferred shares issued or outstanding.

The Company's common shares trade on the TSX under the symbol "KEL". During the first three months of 2022, 46.0 million common shares traded on the TSX at a weighted average price of $5.70 per common share, up from the volume weighted average trading price of $3.20 per common share during the year ended December 31, 2021.

As at March 31, 2022, officers, directors, and employees have been granted options to purchase 12.6 million common shares of the Company at an average exercise price of $3.91 per common share. In addition, there are 0.9 million RSUs outstanding. Additional information regarding the Company's stock options and RSUs is included in note 9 of the interim financial statements.

OFF-BALANCE SHEET TRANSACTIONS

The Company did not engage in any off-balance sheet transactions during the periods ended March 31, 2022 and 2021.

SUMMARY OF QUARTERLY RESULTS AND CURRENT ECONOMIC ENVIRONMENT

The following tables summarize the Company's financial and operating results over the past eight quarters:

(CA$ thousands, except as otherwise indicated)	**Q1 2022**	Q4 2021	Q3 2021	Q2 2021	Q1 2021	Q4 2020	Q3 2020	Q2 2020
Petroleum and natural gas sales	**138,446**	120,523	75,761	60,644	59,835	41,961	48,823	45,454
Cash provided by (used in) operating activities	**65,553**	52,056	46,547	34,529	26,582	3,288	(8,610)	14,429
Adjusted funds from operations [(1)]	**74,169**	68,155	36,336	29,452	27,451	10,758	9,002	11,712
Per share – basic ($/common share) [(1)]	**0.39**	0.36	0.19	0.16	0.15	0.06	0.05	0.06
Per share – diluted ($/common share) [(1)]	**0.38**	0.35	0.19	0.15	0.14	0.06	0.05	0.06
Net income (loss) and comprehensive income (loss)	**10,720**	52,996	3,752	54,654	2,854	26,018	(24,080)	(252,661)
Per share – basic ($/common share)	**0.06**	0.28	0.02	0.29	0.02	0.14	(0.13)	(1.35)
Per share – diluted ($/common share)	**0.06**	0.28	0.02	0.29	0.02	0.14	(0.13)	(1.35)
Capital expenditures, net of A&D [(1)]	**83,693**	67,118	71,162	45,786	29,446	24,470	(497,321)	27,768
Total assets	**967,119**	913,497	872,212	842,454	775,033	759,987	824,751	1,295,965
Bank debt	**-**	1,150	-	-	-	-	-	320,300
Net debt (surplus) [(1)]	**34,685**	28,220	28,174	(6,696)	(24,303)	(27,655)	(132,263)	373,513

Average daily production (BOE/d)	**27,413**	25,815	19,621	19,592	18,860	16,476	22,443	30,366
Combined net realized price ($/BOE) [(1)(2)]	**49.96**	47.39	38.33	31.49	33.07	23.90	19.31	20.67
Operating netback ($/BOE) [(1)]	**31.26**	30.00	21.10	17.68	17.67	8.40	7.02	6.56
Operating netback % of combined net realized price [(2)]	**63%**	63%	55%	56%	53%	35%	36%	32%

(1) Refer to advisories regarding "Non-GAAP and Other Financial Measures".
(2) In this table, average realized prices are after financial instruments.

Beginning in March 2020, the COVID-19 pandemic created an unprecedented global crude oil demand reduction that resulted in a significant decrease in 2020 benchmark crude oil prices. This resulted in lower petroleum and natural gas sales revenue in 2020, which in turn reduced adjusted funds from operations and net income (loss).

Crude oil prices reached a bottom in the second quarter of 2020, with unprecedented negative WTI benchmark prices

occurring in April 2020. However positive vaccine development and rollout and significant production curtailments from OPEC+ and non-OPEC nations, resulted in a significant re-bound in crude oil prices at the end of 2020. Throughout 2021 and into 2022 benchmark global crude oil prices steadily increased due to increasing global demand, OPEC+ production curtailments, and low levels of capital investment in both OPEC+ non-OPEC nations. In the first quarter of 2022, the Russian and Ukrainian conflict resulted in further volatility of crude prices.

The average benchmark North American natural gas prices increased in 2021 and into 2022 due to a colder than average start of 2021, record LNG exports in 2021 and in 2022, and below average storage levels heading into the winter months.

On August 21, 2020, Kelt completed the Inga Asset Disposition for consideration of $503.9 million after closing adjustments. This resulted in a reduction of Kelt's production and total assets subsequent to the transaction, along with a full repayment of the Company's outstanding bank debt and the redemption of all outstanding convertible debentures. Production sold as part of the Inga Asset Disposition was approximately 14k BOE per day in the second quarter of 2020.

Refer to the *"Financial and Operating Summary"* section of this MD&A for further discussion. Additional information relating to Kelt, including the Company's MD&A for previous quarters, is filed on SEDAR and can be viewed at www.sedar.com.

OUTLOOK AND GUIDANCE

As of the date of this MD&A, management has updated its 2022 guidance from March 10, 2022 to incorporate revised commodity price assumptions and first quarter results.

(CA$ millions, except as otherwise indicated)	**Current 2022 Budget**	**Previous 2022 Guidance (March 10, 2022)**	**% Change to Current 2022 Budget**

(1) Refer to advisories regarding "Non-GAAP and Other Financial Measures".

Forecasted average production remains at 31,000 BOE per day weighted 37% to oil/NGLs and 63% to gas, consistent with the previous guidance.

WTI crude oil prices are forecasted to average US$90.00 per barrel, up 6% from the average forecasted price of US$85.00 per barrel in the Company's previous guidance. Forecasted NYMEX natural gas prices have been revised upwards by 29% to average US$5.35 per mmbtu. After giving effect to the changes in commodity price assumptions, adjusted funds from operations for 2022 was revised up by 13% to $340.0 million.

Capital expenditures, net of A&D is estimated to be $265.0 million, an increase of $15.0 million, from $250.0 million in the previous guidance. Net debt is estimated to be in a surplus of $50.0 million, an increase of $31.0 million from the previous guidance.

SIGNIFICANT JUDGMENTS AND ESTIMATES

The timely preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ materially from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are reviewed and for any future years affected. Significant judgments, estimates and assumptions made by management in these financial statements are outlined in note 3 of the December 31, 2021 consolidated annual financial statements.

These estimates require assumptions for future commodity prices, exchange rates, interest rates, future oil and natural gas production, and other economic issues that have a high degree of uncertainty. As the understanding of the longer-term impacts of COVID-19 on commodity, credit and equity markets develops, so will the assumptions for the valuation of Kelt's exploration and evaluation assets, the valuation of its cash generating units, the timing around its decommissioning obligations, the fair value of its investments in securities, the Company's calculated expected credit loss provision and the general collectability of its accounts receivables, and its liquidity and going concern assessment.

DISCLOSURE CONTROLS AND PROCEDURES

The Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO") have designed, or caused to be designed under their supervision, disclosure controls and procedures as defined in National Instrument 52-109 of the Canadian Securities Administrators, to provide reasonable assurance that: (i) material information relating to the Company is made known to the CEO and the CFO by others, particularly during the period in which the annual and interim filings are being prepared; and (ii) information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

The CEO and the CFO have designed, or caused to be designed under their supervision, internal controls over financial reporting as defined in National Instrument 52-109 of the Canadian Securities Administrators, in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

There were no changes to the Company's internal controls over financial reporting during the interim period from January 1, 2022 to March 31, 2022 that have materially affected, or are reasonably likely to materially affect the Company's internal controls over financial reporting.

Due to its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation relating to the effectiveness in future periods are subject to the risk that controls may become inadequate as a result of changes in conditions, or that the degree of compliance with policies and procedures may deteriorate.

NON-GAAP AND OTHER FINANCIAL MEASURES

This MD&A contains certain financial measures, as described below, which do not have standardized meanings prescribed by GAAP. In addition, this MD&A contains capital management measures, and supplementary financial measures that do not have standardized meanings under the applicable securities legislation. As these non-GAAP and other financial measures are commonly used in the oil and gas industry, the Company believes that their inclusion is useful to investors. The reader is cautioned that these amounts may not be directly comparable to measures for other companies where similar terminology is used.

NON-GAAP FINANICAL MEASURES

P&NG sales before marketing revenue and P&NG sales after cost of purchases

Throughout this MD&A, reference is made to "P&NG sales", "P&NG sales before marketing revenue", and "P&NG sales after cost of purchases". P&NG sales is as reported in the consolidated financial statements in accordance with GAAP and is before realized gains or losses on financial instruments. P&NG sales before marketing revenue includes P&NG sales (in accordance with GAAP) prior to third party revenue and volumes related to the Company's oil blending and third-party natural gas purchases and relates sales. P&NG sales after cost of purchases includes P&NG sales (in accordance with GAAP), net of the cost of third-party volumes purchases. P&NG sales before marketing revenue, and P&NG sales after cost of purchases are used by management to assess the Company's revenue from its core operations, which the Company believes may be a better indicator of historical and future performance.

See the "Petroleum and Natural Gas Sales" section of this MD&A which provides a reconciliation of P&NG sales before marketing revenue, and "P&NG sales after cost of purchases to P&NG sales, which is a GAAP measure.

Net realized price

Net realized price is a non-GAAP measure and is calculated by deducting the cost of purchases from petroleum and natural gas sales (before royalties), divided by the Company's production and reflects Kelt's realized selling prices plus the net benefit of oil blending/marketing activities. In addition to using its own production, the Company may purchase butane and crude oil from fourth parties for use in its blending operations, with the objective of selling the blended oil product at a premium. Marketing revenue from the sale of third-party volumes is included in total petroleum and natural gas sales as reported in the Consolidated Statement of Net Income (Loss) and Comprehensive Income (Loss) in accordance with GAAP. Given the Company's per unit operating statistics disclosed throughout this MD&A are calculated based on Kelt's production volumes, management believes that disclosing its net realized prices based on petroleum and natural gas sales after cost of purchases is more appropriate and useful, because the cost of third-party volumes purchased to generate the incremental marketing revenue has been deducted. Net realized prices referenced throughout this MD&A are before financial instruments, except as otherwise indicated as being after financial instruments.

See the "Petroleum and Natural Gas Sales" section of this MD&A which provides a reconciliation of the net realized price to P&NG sales, which is a GAAP measure.

Operating netback

Operating netback is a non-GAAP measure calculated by deducting royalties, production expenses and transportation expenses from petroleum and natural gas sales, net of the cost of purchases and after realized gains or losses on associated financial instruments. The Company also presents operating netbacks on a per boe basis which allows management to better analyze performance against prior periods, on a comparable basis, and is a key industry performance measure of operational efficiency.

See the "Adjusted Funds from Operations" section of this MD&A which provides a reconciliation of the operating netback from P&NG sales, which is a GAAP measure.

Capital Expenditures

"Capital expenditures, before A&D" and "Capital expenditures, net of A&D" are measures the Company uses to monitor its investment in exploration and evaluation, investment in property plant and equipment, and net investment in acquisition and disposition activities. The most directly comparable GAAP measure is Cash provided by (used in) investing activities, and is calculated as follows:

	Three months ended March 31	
(CA$ thousands, except as otherwise indicated)	**2022**	2021
Cash provided by investing activities	**67,759**	24,113
Change in non-cash investing working capital	**15,934**	5,333
Capital expenditures, net of A&D	**83,693**	29,446
Property acquisitions	**(2)**	5
Property dispositions	**41**	-
Capital expenditures, before A&D	**83,732**	29,451

CAPITAL MANAGEMENT MEASURES

Adjusted funds from operations and annualized quarterly adjusted funds from operations

Management considers adjusted funds from operations and annualized quarterly adjusted funds from operations key capital management measures as it demonstrates the Company's ability to meet its financial obligations and cash flow available to fund its capital program. Adjusted funds from operations and annualized quarterly adjusted funds from operations are not standardized measures and therefore may not be comparable with the calculation of similar measures by other entities.

Adjusted funds from operations and annualized quarterly adjusted funds from operations is calculated as follows:

(CA$ thousands, except as otherwise indicated)	**Three months ended March 31, 2022**	Three months ended March 31, 2021	Three months ended December 31, 2021
Cash provided by operating activities	**65,553**	26,582	52,056
Change in non-cash working capital	**6,738**	(312)	15,058
Funds from operations	**72,291**	26,270	67,114
Settlement of decommissioning obligations	**1,878**	1,181	1,041
Adjusted funds from operations	**74,169**	27,451	68,155
Annualized quarterly adjusted funds from operations	**296,676**	109,804	272,620

Net debt (surplus) and net debt (surplus) to annualized quarterly adjusted funds from operations ratio

Management considers net debt (surplus) and a net debt (surplus) to annualized quarterly adjusted funds ratio from operations as key capital management measures to assess the Company's liquidity at a point in time and to monitor its capital structure and short-term financing requirements. The "net debt (surplus) to annualized quarterly adjusted funds from operations ratio" is also indicative of the "net debt (surplus) to cash flow ratio" calculation used to determine the applicable margin for a quarter under the Company's Credit Facility agreement (though the calculation may not always be a precise match, it is representative).

"Net debt (surplus)" is equal to bank debt, accounts payable and accrued liabilities, net of cash and cash equivalents, accounts receivables and accrued sales and prepaid expenses and deposits. The Company previously disclosed a "Net bank debt (surplus)" for its non-GAAP measure which was used to understand the Company's liquidity risk. In the third quarter of 2021, the Company replaced its "Net bank debt (surplus)" non-GAAP measure with a "Net debt (surplus)" non-GAAP measure. "Net bank debt (surplus)" was equal to bank debt, plus current liabilities, less current assets. The Company believes that using a "Net debt (surplus)" non-GAAP measure, which excludes non-cash derivative financial instruments, non-cash lease liabilities, and non-cash decommissioning obligations, provides investors with more useful information to understand the Company's cash liquidity risk.

See the "Capital Resources and Liquidity" section of this MD&A for calculation of the Net debt (surplus) and net debt (surplus) to annualized quarterly adjusted funds from operations ratio.

SUPPLEMENTARY FINANICAL MEASURES

"Production per common share" is calculated by dividing total production by the basic weighted average number of common shares outstanding, as determined in accordance with GAAP.

P&NG sales, cost of purchases, realized gain (loss) on financial instruments, royalties, revenue after royalties and financial instruments, production expenses, transportation expenses, financing expenses, G&A expenses, realized gain (loss) on financial instruments, gain (loss) on derivative financial instruments, realized loss (gain) on foreign exchange, other income/expense, stock option expense, expiry of mineral leases, depletion and depreciation, impairment (reversal) on a $/BOE basis is calculated by dividing the amounts by the Company's total production over the period.

Adjusted funds from operations per share (basis) and net income (loss) and comprehensive income (loss) per share (basis) is calculated by dividing the amounts by the basic weighted average common shares outstanding.

Adjusted funds from operations per share (diluted) and net income (loss) and comprehensive income (loss) per share (diluted) is calculated by dividing the amounts by the diluted weighted average common shares outstanding.

BUSINESS RISKS

The business of exploration, development, production and acquisition of oil and gas reserves involves a number of uncertainties. As a result, the Company is exposed to certain business risks inherent in the oil and gas industry which may impact the Company's operations or financial results. A discussion of business risks, as well as economic and industry factors affecting the Company is included in Kelt's annual MD&A for the year ended December 31, 2021, dated March 10, 2022.

Kelt is monitoring the impact of the 2021 Supreme Court of British Columbia judgement (the "Judgment") with respect to a claim brought forth by the Blueberry River First Nation ("Blueberry") against the province of British Columbia regarding the cumulative impact of industrial development within the Blueberry treaty claim area. The Judgement found that the Province of British Columbia breached the Treaty 8 rights of the Blueberry by allowing extensive industrial development on the Blueberry's traditional territory without first assessing the cumulative impacts of this development on the ability of the members of the Blueberry to exercise their Treaty 8 rights to hunt, fish, and trap on their traditional territory. The Judgement calls for the province of British Columbia to pause development in the Blueberry traditional area pending the results of an investigation into the cumulative impacts of industrial development in the Blueberry's traditional territory. The Judgement gives six months for the Government of British Columbia and the Blueberry to negotiate changes to the regulatory regime that recognizes and respects treaty rights.

On October 7, 2021 the Government of British Columbia and the Blueberry announced they reached a first step in the initial agreement in developing land management processes on the Blueberry traditional territory. As part of this agreement, a number of forestry and oil and gas projects, which were permitted or authorized prior to the Judgment, would continue to proceed. The announcement also states that the Province of British Columbia and the Blueberry are working to finalize an interim approach for reviewing new natural resource activities that balance Treaty 8 rights, the economy and the environment.

The Company notes that delays in obtaining permits in the province of British Columbia in 2022, may result in a re-allocation of capital expenditures from the province of British Columbia to Alberta.

On October 7, 2021 the Province of British Columbia announced it was launching a comprehensive review of its royalty system. Any future changes to the British Columbia royalty system may have an impact on the Company's future cash flows.

Additional information is included in Kelt's Annual Information Form dated March 10, 2022 which can be found at www.sedar.com

Kelt publishes an annual Environmental, Social, and Governance ("ESG") Report, which includes the Company's ESG practices and performance. The latest report, dated February 17, 2022 can be found on the Company's website at www.keltexploration.com. Kelt's ESG report is aligned with the standards set out in the Sustainability Accounting Standards Board, Oil and Gas – Exploration and Production Sustainability Accounting Standard.

ADVISORY REGARDING FORWARD-LOOKING STATEMENTS

The information set out herein is "financial outlook" within the meaning of applicable securities laws. The purpose of this financial outlook is to provide readers with disclosure regarding Kelt's reasonable expectations as to the anticipated results of its proposed business activities for the calendar year 2022. Readers are cautioned that this financial outlook may not be appropriate for other purposes.

Certain information with respect to Kelt contained herein, including management's assessment of future plans and operations, contains forward-looking statements. These forward-looking statements are based on assumptions and are subject to numerous risks and uncertainties, many of which are beyond Kelt's control, including the impact of general economic conditions, industry conditions, volatility of commodity prices, currency exchange rate fluctuations, imprecision of reserve estimates, environmental risks, competition from other explorers, stock market volatility and ability to access sufficient capital. As a result, Kelt's actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any events anticipated by the forward-looking statements will transpire or occur.

In addition, the reader is cautioned that historical results are not necessarily indicative of future performance. The forward-looking statements contained herein are made as of the date hereof and the Company does not intend, and does not assume any obligation, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise unless expressly required by applicable securities laws.

This MD&A contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends", "potentially" and similar expressions are intended to identify forward-looking information or statements. In particular, this MD&A contains forward-looking statements pertaining to the following: Kelt's expected price realizations and future commodity prices; the cost and timing of future capital expenditures and expected results; the Company's ability to continue accumulating land at a low-cost in its core operating areas and potentially monetize non-core assets; the expected timing of well completions, the expected timing of wells bring brought on-production, the expected timing of facility expenditures, the expected timing of facility start-up dates, the expected timing of production additions from capital expenditures; and the Company's expected future financial position and operating results. Statements relating to "reserves" or "resources" are deemed to be forward looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the reserves described exist in the quantities predicted or estimated and that the reserves can be profitably produced in the future. Actual reserves may be greater than or less than the estimates provided herein.

Although Kelt believes that the expectations and assumptions on which the forward-looking statements are based are reasonable, undue reliance should not be placed on the forward-looking statements because Kelt cannot give any assurance that they will prove to be correct. Since forward-looking statements address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These include, but are not limited to, the risks associated with the oil and gas industry in general, operational risks in development, exploration and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserve estimates; the uncertainty of estimates and projections relating to production, costs and expenses; failure to obtain necessary regulatory approvals for planned operations; health, safety and environmental risks; uncertainties resulting

from potential delays or changes in plans with respect to exploration or development projects or capital expenditures; volatility of commodity prices, currency exchange rate fluctuations; imprecision of reserve estimates; as well as general economic conditions, stock market volatility; and the ability to access sufficient capital. We caution that the foregoing list of risks and uncertainties is not exhaustive.

Certain information set out herein may be considered as "financial outlook" within the meaning of applicable securities laws. The purpose of this financial outlook is to provide readers with disclosure regarding Kelt's reasonable expectations as to the anticipated results of its proposed business activities for the periods indicated. Readers are cautioned that the financial outlook may not be appropriate for other purposes.

ADDITIONAL INFORMATION

Additional information relating to Kelt, including the Company's Annual Information Form ("AIF") dated March 10, 2022 is filed on SEDAR and can be viewed on their website at www.sedar.com. Copies of the AIF can also be obtained by contacting Sadiq H. Lalani, Vice President and Chief Financial Officer at Kelt Exploration Ltd., Suite 300, 311 Sixth Avenue SW, Calgary, Alberta, Canada, T2P 3H2. Further information relating to Kelt is also available on its website at www.keltexploration.com

1. DESCRIPTION OF THE BUSINESS

Kelt Exploration Ltd. ("Kelt" or the "Company") is an oil and gas company based in Calgary, Alberta, focused on the exploration, development and production of crude oil and natural gas resources, primarily in northwestern Alberta and northeastern British Columbia. The Company's British Columbia assets are operated by Kelt Exploration (LNG) Ltd. ("Kelt LNG"), a wholly owned subsidiary of Kelt. The Company's common shares are listed on the Toronto Stock Exchange ("TSX") under the symbol "KEL".

The head office of Kelt is located at Suite 300, 311 - 6th Avenue S.W., Calgary, Alberta T2P 3H2.

2. Significant Judgements and Estimates

The timely preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ materially from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are reviewed and for any future years affected. Significant judgments, estimates and assumptions made by management in these financial statements are outlined in note 2 of the December 31, 2021 consolidated annual financial statements.

These estimates require assumptions for future commodity prices, exchange rates, interest rates, future oil and natural gas production, and other economic issues that have a high degree of uncertainty.

The Company will continue to update its significant judgments, estimates and assumptions on the longer-term impacts of COVID-19 and the emergence of new COVID-19 variants as the impacts, if any, on commodity prices and equity markets becomes available.

3. BASIS OF PRESENTATION

The Company's Board of Directors approved and authorized these consolidated condensed interim financial statements on May 4, 2022 for issue on May 5, 2022.

a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"), applicable to the preparation of interim financial statements, including IAS 34 *Interim Financial Reporting*. Certain disclosures included in the notes to the annual financial statements have been condensed in the following note disclosures or have been disclosed on an annual basis only. Accordingly, these condensed consolidated interim financial statements should be read in conjunction with the audited consolidated annual financial statements as at and for the year ended December 31, 2021.

b) Basis of measurement

All references to dollar amounts in these financial statements and related notes are thousands of Canadian dollars, unless otherwise indicated.

The financial statements have been prepared on a historical cost basis, except for certain financial instruments which are recorded at fair value. The methods used to measure fair values are described in note 10 of these financial statements.

Certain balances have been reclassified to align to the current year presentation.

4. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied by the Company are described in note 3 of the December 31, 2021 consolidated annual financial statements. These condensed consolidated interim financial statements as at March 31, 2022 have been prepared following the same accounting policies and methods of computation as the most recent consolidated annual financial statements as at and for the year ended December 31, 2021.

Income tax expense for an interim period is based on an estimated average annual effective income tax rate.

5. EXPLORATION AND EVALUATION ASSETS

Exploration and evaluation assets consist of the Company's undeveloped land, geological and geophysical assets, and exploratory drilling costs for projects in which the technical feasibility or commercial viability has yet to be determined. At the time sufficient information becomes available to determine whether the project is technically feasible or commercially viable, the costs are either transferred to property, plant, and equipment or charged to exploration and evaluation expense.

The following table reconciles movements of exploration and evaluation assets:

	March 31, 2022	December 31, 2021
Balance, beginning of period	**29,529**	53,449
Additions	**250**	4,202
Property acquisitions	**-**	242
Property dispositions	**(34)**	(1,427)
Transfers to property, plant and equipment	**(1,861)**	(26,009)
Expired mineral leases	**(46)**	(928)
Balance, end of period	**27,838**	29,529

6. PROPERTY, PLANT AND EQUIPMENT

Net carrying value	**March 31, 2022**	December 31, 2021
Development and production ("D&P") assets	**866,827**	821,017
Right-of-use ("ROU") assets	**953**	1,009
Corporate assets	**560**	778
Total net carrying value of property, plant and equipment	**868,340**	822,804

The following table reconciles movements of property, plant and equipment ("PP&E") during the period:

Property, plant and equipment, at cost	D&P Assets	Corporate Assets	ROU Assets	Total PP&E
Balance at December 31, 2020	1,251,898	5,238	2,503	1,259,639
Additions	217,018	1,087	289	218,394
Property acquisitions	96	-	-	96
Property dispositions	(21,692)	-	-	(21,692)
Provision	(1,000)	-	-	(1,000)
Change in decommissioning obligations	3,468	-	-	3,468
Transfers from E&E	26,009	-	-	26,009
Balance at December 31, 2021	**1,475,797**	**6,325**	**2,792**	**1,484,914**
Additions	**83,464**	**18**	**84**	**83,566**
Property acquisitions	**2**	**-**	**-**	**2**
Property dispositions	**(203)**	**-**	**-**	**(203)**
Change in decommissioning obligations	**(10,295)**	**-**	**-**	**(10,295)**
Transfers from E&E	**1,861**	**-**	**-**	**1,861**
Balance at March 31, 2022	**1,550,626**	**6,343**	**2,876**	**1,559,845**

Accumulated depletion, depreciation and impairment	D&P Assets	Corporate Assets	ROU Assets	Total PP&E
Balance at December 31, 2020	645,566	5,047	1,260	651,873
Depletion and depreciation expense	90,228	500	523	91,251
Impairment reversal	(70,130)	-	-	(70,130)
Dispositions	(10,884)	-	-	(10,884)
Balance at December 31, 2021	**654,780**	**5,547**	**1,783**	**662,110**
Depletion and depreciation expense	**29,019**	**236**	**140**	**29,395**
Balance at March 31, 2022	**683,799**	**5,783**	**1,923**	**691,505**

Future capital costs required to develop proved reserves in the amount of $746.4 million (December 31, 2021 – $754.6 million) are included in the depletion calculation for development and production assets.

As at March 31, 2022, the Company concluded that there were no indicators of impairment as compared to December 31, 2021 therefore an impairment test was not conducted.

7. BANK DEBT

The Company has a $100.0 million demand and revolving term facility ("the Credit Facility") with a syndicate of financial institutions. As at March 31, 2022, there were no borrowings outstanding under the Credit Facility other than outstanding letters of credit of $2.0 million. The Credit Facility may be extended annually at Kelt's option and subject to lender approval, with a 364 day term-out period if not renewed.

Repayments of principal are not required provided that the borrowings under the facility do not exceed the authorized borrowing amount. The credit facility is subject to semi-annual redeterminations. There are no financial covenants under the Credit Facility and Kelt is in compliance with all other covenants. Covenants include industry standard positive and negative covenants including reporting requirements, permitted indebtedness, permitted risk management activities, permitted encumbrances and other standard business operating covenants. Security is provided for by a demand debenture with a floating charge over all assets in the amount of $800.0 million.

Interest is payable monthly for borrowings through direct advances. Interest rates fluctuate based on the prime rate

plus the applicable margin. The applicable margin ranges from 175 basis points to 575 basis points depending upon the Company's Net Debt to Cash Flow ratio of between less than 0.5 times to greater than five times. Under the Credit Facility, borrowings by bankers' acceptances are also available. Stamping fees fluctuate based on a pricing grid and range from 2.75% to 6.75%, depending upon the Company's Net Debt to Cash Flow ratio of between less than 0.5 times to greater than five times.

8. DECOMMISSIONING OBLIGATIONS

Decommissioning obligations arise as a result of the Company's net ownership interests in petroleum and natural gas assets including well sites, processing facilities and infrastructure. The following table provides a reconciliation of the carrying amount of the obligation associated with the retirement of oil and gas properties:

	March 31, 2022	December 31, 2021
Balance, beginning of period	**115,053**	117,060
Obligations incurred	**872**	2,395
Obligations acquired	**-**	86
Obligations disposed	**-**	(3,981)
Obligations settled	**(1,878)**	(3,583)
Changes in discount rate	**(20,066)**	(26,279)
Changes in inflation rate	**8,724**	16,569
Revisions to estimates	**175**	10,783
Accretion expense	**467**	2,003
Balance, end of period	**103,347**	115,053
Decommissioning obligations – current	**1,336**	2,396
Decommissioning obligations – non-current	**102,011**	112,657
Key assumptions		
Risk free rate	**2.4%**	1.7%
Inflation rate	**2.0%**	1.7%

The underlying cost estimates are derived from a combination of published industry benchmarks as well as site specific information. As at March 31, 2022 the undiscounted amount of the estimated cash flows required to settle the obligation is $114.8 million (December 31, 2021 – $115.1 million) and is expected to be incurred over the next 50 years. Based on an inflation rate of 2%, the undiscounted amount of the estimated future cash flows required to settle the obligation is $218.5 million at March 31, 2022 (December 31, 2021 – $191.6 million). The inflated future cost estimates are discounted based on a risk-free rate to determine the carrying amounts presented in the table above.

Accretion of the decommissioning obligation due to the passage of time is presented within financing expenses in the Consolidated Statement of Net Income and Comprehensive Net Income (note 12).

9. SHARE CAPITAL

Authorized

The Company is authorized to issue an unlimited number of common shares and an unlimited number of preferred shares, each without par value.

Issued and outstanding

The following table summarizes the change in common shares issued and outstanding. There are no preferred shares issued or outstanding as of March 31, 2022 (December 31, 2021 – nil).

	Number of Shares (000s)	Amount ($ thousands)
Balance at December 31, 2020	188,580	1,141,517
Issued on exercise of stock options	291	568
Transfer from contributed surplus on exercise of stock options	-	200
Released upon vesting of restricted share units	293	2,311
Balance at December 31, 2021	**189,164**	**1,144,596**
Issued on exercise of stock options	**1,170**	**5,125**
Transfer from contributed surplus on exercise of stock options	**-**	**1,926**
Released upon vesting of restricted share units	**5**	**24**
Balance at March 31, 2022	**190,339**	**1,151,671**

Stock options

Kelt has an Incentive Stock Option Plan (the "Option Plan") that provides for granting of stock options to directors, officers, employees and certain consultants. The stock options granted pursuant to the Option Plan are to be settled through the issuance of new common shares of the Company which vest in equal tranches over a three year period and have a maximum term of five years to expiry.

The following table summarizes the change in stock options outstanding:

	Number of Options (000s)	Average Exercise Price ($/share)
Balance at December 31, 2020	9,967	3.88
Granted	2,642	2.79
Exercised (1)	(291)	1.95
Forfeited	(137)	4.66
Expired	(1,658)	4.72
Balance at December 31, 2021	**10,523**	**3.52**
Granted	**3,343**	**5.34**
Exercised (1)	**(1,170)**	**4.38**
Forfeited	**(64)**	**4.25**
Expired	**(30)**	**7.08**
Balance at March 31, 2022	**12,602**	**3.91**

(1) The weighted average share price on the date stock options were exercised during the quarter ended March 31, 2022 was $6.61 per common share ($3.87 per common share on average during the year ended December 31, 2021).

The total fair value of each option granted is estimated on the date of grant using the Black-Scholes option pricing model with weighted average assumptions as follows:

	Three months ended March 31	
	2022	2021
Risk free interest rate	**1.90%**	0.6%
Expected life (years)	**3.5**	3.6
Expected volatility (1)	**76.2%**	79.4%
Expected dividend yield	**0.0%**	0.0%
Expected forfeiture rate	**4.8%**	5.3%
Fair value of options granted during the year ($/share)	**2.85**	1.47

(1) The expected volatility for options granted is estimated based on Kelt's historical share price volatility.

The following table summarizes information regarding stock options outstanding at March 31, 2022:

Range of exercise prices per common share	Number of options outstanding (000s)	Weighted average remaining term (years)	Weighted average exercise price for options outstanding ($/share)	Number of options exercisable (000s)	Weighted average exercise price for options exercisable ($/share)
$0.00 to $3.50	5,863	3.2	2.12	2,162	2.31
$3.51 to $6.50	5,030	3.9	5.11	1,492	4.74
$6.51 to $9.50	1,709	0.6	6.55	1,699	6.55
Total	**12,602**	**3.2**	**3.91**	**5,353**	**4.33**

Restricted share units

Kelt has a restricted share unit plan that provides for granting of restricted share units ("RSUs") to officers, employees and certain consultants. The RSUs granted under the RSU Plan are to be settled through the issuance of new common shares upon vesting. RSUs vest in two equal tranches with the first half vesting after two years and the second half after three years.

The following table summarizes the change in RSUs outstanding:

	Number of RSUs (000s)
Balance at December 31, 2020	346
Granted	709
Released upon vesting	(293)
Forfeited	(3)
Balance at December 31, 2021	**759**
Granted	**170**
Released upon vesting	**(5)**
Forfeited	**(10)**
Balance at March 31, 2022	**914**

The total fair value associated with stock options and RSUs is recognized over the service period using graded vesting, resulting in share based compensation expense as follows:

	Three months ended March 31	
	2022	2021
Stock options	**889**	509
Restricted share units	**215**	238
Total share based compensation expense	**1,104**	747

Per share amounts

The table below summarizes the weighted average number of common shares outstanding used in the calculation of basic and diluted net income per common share:

	Three months ended March 31	
(000s of common shares)	**2022**	2021
Weighted average common shares outstanding, basic	**189,383**	188,585
Effect of stock options and RSUs	**4,308**	1,359
Weighted average common shares outstanding, diluted	**193,691**	189,944

The Company uses the treasury stock method to determine the dilutive effect of stock options and RSUs. Under this method, only "in-the-money" dilutive instruments impact the calculation of diluted net income per common share. For the quarter ended March 31, 2022, the company included the effect of stock options and RSUs in calculating the diluted net income per common share however, the effect was negligible.

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments of the Company include cash and cash equivalents, investment in securities, accounts receivable and accrued sales, deposits, accounts payable and accrued liabilities, derivative financial instruments, and bank debt (when an outstanding balance is drawn on the Credit Facility). The Company is exposed to financial risks arising from its financial assets and liabilities that include credit and liquidity risk in addition to the market risks associated with commodity prices, and interest and foreign exchange rates. Net income, cash flows and the fair value of financial assets and liabilities may fluctuate due to movement in market prices or as a result of the Company's exposure to credit and liquidity risks.

The objective of the Company's risk management is to manage and control market risk exposures within acceptable limits, while maximizing long-term returns. All such transactions are conducted in accordance with the Company's established risk management policies that permit management to enter into commodity price agreements, provided that:

i) the contracts are not entered into for speculative purposes;
ii) the total notional quantity hedged, at the time of entering into the contract, does not exceed 65% of average daily production; and
iii) the contracted term does not exceed 36 months.

Commodity price risk

Inherent to the business of producing oil and gas, the Company's cash provided by operating activities is subject to commodity price risk. Commodity price risk is the risk that future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices are impacted by economic events that dictate the levels of supply and demand as well as the currency exchange rate relationship between the Canadian and U.S. dollar.

As at March 31, 2022, the following commodity price risk management contracts are outstanding:

Contract Type [(1)(2)(3)]	Notional Volume	Contract Price	Remaining Term
Natural gas derivative contracts			
NYMEX fixed price swap	45,000 MMBtu/d	CAD$5.58/MMBtu	Apr – Oct 2022
Crude oil derivative contracts			
WTI-MSW basis swap	1,500 bbl/d	WTI less USD$4.75/bbl	Apr – Dec 2022
WTI fixed price swap	3,000 bbl/d	CAD$95.67/bbl	Apr – Jun 2022

(1) West Texas Intermediate ("WTI")
(2) NYMEX Henry Hub ("NYMEX")
(3) Mixed Sweet Blend ("MSW")

Subsequent to March 31, 2022, Kelt entered into the following commodity price risk management contracts:

Contract Type [(1)]	Notional Volume	Contract Price	Remaining Term
Natural gas derivative contracts			
NYMEX fixed price swap	10,000 MMBtu/d	CAD$10.15/MMBtu	Nov – Mar 2023

(1) NYMEX Henry Hub ("NYMEX")

Interest rate risk

The Company has historically been exposed to interest rate risk to the extent that changes in market interest rates will impact the Company's Credit Facility which is subject to a floating interest rate. As at March 31, 2022, there are no interest rate risk management contracts outstanding.

Foreign exchange risk

Kelt is exposed to fluctuations of the Canadian to U.S. dollar exchange rate given realized pricing is directly influenced by U.S. dollar denominated benchmark pricing and from exposure from certain U.S. dollar denominated natural gas marketing arrangements. As at March 31, 2022, there are no foreign exchange risk management contracts outstanding.

Gains and losses on risk management contracts

The table below summarizes realized and unrealized gains (losses) on risk management contracts:

	Three months ended March 31	
	2022	2021
Realized loss	**(12,659)**	(1,859)
Unrealized loss	**(27,986)**	(2,945)
Loss on derivative financial instruments	**(40,645)**	(4,804)

Fair value measurements

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The Company maximizes the use of observable inputs when preparing calculations of fair value, where possible. Assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the fair value hierarchy. The fair value hierarchy has the following levels:

- Level 1 - Values are based on unadjusted quoted prices available in active markets for identical assets or liabilities as of the reporting date.
- Level 2 - Values are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace. Prices in Level 2 are either directly or indirectly observable as of the reporting date.
- Level 3 - Values are based on prices or valuation techniques that are not based on observable market data.

The Company's financial derivative contracts are classified as Level 2 and investment in securities are classified as Level 3.

The fair value of cash and cash equivalents, accounts receivable and accrued sales, deposits, accounts payable and accrued liabilities approximate their carrying value due to the short term to maturity of these instruments. Bank debt bears interest at a floating market rate and accordingly the fair market value of bank debt approximates the carrying amount.

Credit Risk

As at March 31, 2022, the carrying amount of cash and cash equivalents, accounts receivable and accrued sales, and deposits, represent the Company's maximum credit exposure. Cash and cash equivalents are held on deposit with a Canadian chartered bank. The Company's credit risk exposure arises primarily from receivables from oil and gas marketers and joint venture partners.

The composition of the Company's accounts receivable is set out in the following table:

Accounts receivable and accrued sales	**March 31, 2022**	December 31, 2021
Joint venture partners	**5,404**	2,789
Oil and gas marketers	**54,250**	38,534
GST input tax credits	**1,968**	1,740
Other	**15**	138
Expected credit loss provision	**(617)**	(617)
Accounts receivable and accrued sales	**61,020**	42,584

During the quarter ended March 31, 2022, sales to four oil and gas marketers accounted for approximately 90% of total

sales. During the comparative period ended December 31, 2021, sales to five oil and gas marketers accounted for approximately 96% of total sales. Kelt has mitigated some of its credit risk through the majority of its sales to oil and gas marketers which have been rated investment-grade by an independent ratings agency.

The oil and gas industry has a pre-arranged monthly clearing day for payment of revenues from all buyers of oil and natural gas; this occurs on the 25th day following the month of sale. As a result, the Company's production revenues are current. All other accounts receivable are generally contractually due within 30-90 days.

The balance of accounts receivable outstanding for more than 90 days relates primarily to receivables from the Company's joint venture partners. Credit risk related to joint venture receivables is mitigated by obtaining partner approval of significant capital expenditures prior to expenditure and in certain circumstances may require cash deposits in advance of incurring financial obligations on behalf of joint venture partners. The Company has the ability to withhold production from joint venture partners in the event of non-payment or may be able to register security on the assets of joint venture partners. As of March 31, 2022, the collection risk on outstanding accounts receivable balances is considered low as approximately 1.0% of the accounts receivable balance is outstanding for more than 90 days (December 31, 2021 – 1.0%).

Liquidity Risk

The Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they are due. The Company's financial liabilities as at March 31, 2022 include accounts payable, derivative financial instruments, lease liabilities and bank debt. The Company manages liquidity risk with its budgeting process which sets out expected debt levels, capital expenditures and funds flow from operations. In addition, risk management contracts such as derivative financial instruments may be used to protect future sales. The Board of Directors approves an annual capital expenditure budget, which is regularly monitored and updated as necessary in response to changing capital requirements and expected sales.

The capital intensive nature of Kelt's operations may create a working capital deficiency position during periods with high levels of capital investment. However, the Company targets to maintain sufficient unused bank credit lines or other liquidity to satisfy such working capital deficiencies.

The table below outlines a contractual maturity analysis for Kelt's financial liabilities as at March 31, 2022:

	Within 1 Year	1 to 5 Years	More than 5 Years	**Total**
Accounts payable and accrued liabilities	99,437	-	-	**99,437**
Derivative financial instruments	23,758	-	-	**23,758**
Lease liability	633	271	-	**904**
Total	**123,828**	**271**	**-**	**124,099**

Capital Management

The Company's capital structure is comprised of shareholders' capital, bank debt and working capital. The Company's objective when managing its capital structure is to maintain financial flexibility in order to meet financial obligations, as well as finance future capital expenditures relating to exploration, development and acquisition activities.

The Company may increase or decrease capital expenditures including acquisitions and dispositions, issue new shares, issue new debt or repay existing debt, if any, according to market conditions in order to maintain its financial flexibility.

Adjusted funds from operations and annualized quarterly adjusted funds from operations

Management considers adjusted funds from operations and annualized quarterly adjusted funds from operations key capital management measures that demonstrate the Company's ability to meet its financial obligations and cash flow available to fund its capital program. Adjusted funds from operations and annualized quarterly adjusted funds from operations are not standardized measures and therefore may not be comparable with the calculation of similar measures by other entities.

Adjusted funds from operations and annualized quarterly adjusted funds from operations is calculated as follows:

	Three months ended March 31, 2022	Three months ended December 31, 2021
Cash provided by operating activities	**65,553**	52,056
Change in non-cash working capital	**6,738**	15,058
Settlement of decommissioning obligations	**1,878**	1,041
Adjusted funds from operations	**74,169**	68,155
Annualized quarterly adjusted funds from operations	**296,676**	272,620

Net debt (surplus) and net debt (surplus) to annualized quarterly adjusted funds from operations ratio

Management considers net debt (surplus) and a net debt (surplus) to annualized quarterly adjusted funds from operations ratio as key capital management measures to assess the Company's liquidity at a point in time and to monitor its capital structure and short-term financing requirements. The Company targets a net debt to annualized quarterly adjusted funds from operations ratio of less than 2.0 times. Net debt (surplus) and a net debt (surplus) to annualized quarterly adjusted funds from operations ratio are not standardized measures and therefore may not be comparable with the calculation of similar measures by other entities.

Net debt (surplus) and net debt (surplus) to annualized quarterly adjusted funds from operations ratio is calculated as follows:

	March 31, 2022	December 31, 2021
Bank debt	**-**	1,150
Accounts payable and accrued liabilities	**99,437**	72,453
Cash and cash equivalents	**(2,300)**	(719)
Accounts receivable and accrued sales	**(61,020)**	(42,584)
Prepaid expenses and deposits	**(1,432)**	(2,080)
Net debt (surplus)	**34,685**	28,220
Annualized quarterly adjusted funds from operations	**296,676**	272,620
Net debt (surplus) to annualized quarterly adjusted funds from operations ratio	**0.1**	0.1

As more particularly described in note 7, there are no financial covenants under the Credit Facility agreement and Kelt is in compliance with all other covenants.

11. PETROLEUM AND NATURAL GAS SALES

Kelt sells its oil, natural gas, and NGLs production under variable price contracts. The transaction price is based on a benchmark commodity price, adjusted for quality, location or other factors, whereby each component of the pricing formula (apart from the benchmark commodity price) can be either fixed or variable, depending on the contract terms. Sales are typically collected on the 25th day of the month following the prior month's production, with sales being recorded once the product is delivered to a contractually agreed upon delivery point.

Kelt generates oil treating, gas processing, and other services income from fees charged to third parties provided at facilities where Kelt has an ownership interest. Kelt generates marketing revenue from the sales of third party volumes related to the Company's oil blending operations, with the production being sold under the same terms of the Company's variable oil price contracts discussed above.

Where Kelt is the principal to transportation arrangements, gas production sales includes variable priced contracts after the point where title is transferred to a third party. The transaction price for these contracts is based on benchmark commodity prices at a location that is different from the price at which title transfer takes place. For the quarter ended March 31, 2022, transportation costs incurred in relation to these contracts was $2.8 million (March 31, 2021 – $2.5 million).

Kelt has a number of variable priced long-term commodity sales contracts where the volumes under these contracts for future periods have not yet been fulfilled resulting in unsatisfied performance obligations as at the reporting date. These contracts have varying durations, with the longest individual commodity sales contract ending in March 2042.

The following table presents Kelt's production disaggregated by sales source:

	Three months ended March 31	
	2022	2021
Oil production	**61,971**	23,852
Oil treating and other	**200**	187
NGLs production	**23,072**	10,579
Gas production	**50,443**	23,060
Gas processing and other	**212**	241
Marketing revenue	**2,548**	1,916
Total petroleum and natural gas sales	**138,446**	59,835

Included in accounts receivable at March 31, 2022 is $54.3 million (December 31, 2021 – $38.5 million) of accrued oil and gas sales related to March 2022 production.

12. FINANCING EXPENSES

The following table summarizes significant components of the Company's financing expenses:

	Three months ended March 31	
	2022	2021
Total interest expense	**300**	44
Accretion of decommissioning obligations [note 8]	**467**	343
Total financing expense	**767**	387

13. COMMITMENTS

As of March 31, 2022, the Company is committed to future payments under the following agreements:

	2022	2023	2024	2025	2026	Thereafter
Firm processing commitments	12,284	16,862	17,151	15,048	14,797	43,013
Firm transportation commitments	18,912	23,705	20,855	17,527	15,668	21,472
Total annual commitments	**31,196**	**40,567**	**38,006**	**32,575**	**30,465**	**64,485**

14. SUPPLEMENTAL CASH FLOW INFORMATION

	Three months ended March 31	
Changes in non-cash working capital	**2022**	2021
Accounts receivable and accrued sales	**(18,436)**	(4,330)
Prepaid expenses and deposits	**648**	373
Accounts payable and accrued liabilities	**26,984**	9,602
Change in non-cash working capital	**9,196**	5,645
Relating to:		
Operating activities	**(6,738)**	312
Investing activities	**15,934**	5,333
Change in non-cash working capital	**9,196**	5,645

During the reporting period, the Company made the following cash outlays in respect of interest and taxes:

	Three months ended March 31	
Cash outlays in respect of interest and taxes	**2022**	2021
Interest and standby fees on bank debt	**320**	32
