MESSAGE TO SHAREHOLDERS

Kelt's average production for the three months ended March 31, 2024, was 32,910 BOE per day, up 3% from average production of 31,833 BOE per day during the corresponding quarter in 2023. Production for the first quarter of 2024 was weighted 37% oil and NGLs and 63% gas and operating income was weighted 90% oil and NGLs and 10% gas.

During the month of February 2024, the Company's production was negatively affected due to a third-party gas plant at Wembley that was temporarily shut-in for approximately two weeks, where Kelt has 25 MMcf per day of raw gas firm processing capacity. This gas plant was back to near 100% run-time during March 2024. In addition, also at Wembley, another third-party gas plant experienced processing constraints where Kelt has 34 MMcf per day of raw gas processing capacity. The average run-time for Kelt at this plant during the first quarter of 2024 was approximately 80% of the Company's firm gas processing capacity. This gas plant is expected to be shut-in for approximately two weeks during May and June 2024 for repairs and replacement of amine equipment. Kelt expects the plant to run at closer to 100% of its firm gas processing capacity after these operations are completed.

Average production for the month of March 2024 was approximately 34,000 BOE per day, weighted 38% oil and NGLs and 62% gas.

Kelt's realized average oil price during the first quarter of 2024 was $90.15 per barrel, down 9% from $99.33 per barrel in the first quarter of 2023. The realized average NGLs price during the first quarter of 2024 was $52.18 per barrel, down 8% from $56.48 per barrel in the same quarter of 2023. Kelt's realized average gas price for the first quarter of 2024 was $2.94 per Mcf, down 27% from $4.03 per Mcf in the corresponding quarter of the previous year.

For the three months ended March 31, 2024, petroleum and natural gas sales were $126.4 million and adjusted funds from operations was $61.2 million ($0.31 per common share, diluted), compared to $139.6 million and $92.0 million ($0.47 per common share, diluted) respectively, in the first quarter of 2023. On March 31, 2024, net debt was $32.0 million or 0.1 times trailing twelve months adjusted funds from operations.

Capital expenditures, net of A&D incurred during the three months ended March 31, 2024, were $80.2 million. During the first quarter of 2024, the Company spent $43.0 million on drill and complete operations and $35.9 million on facilities, pipelines, and equipment.

Kelt expects to spend $325.0 million in its capital expenditure program for 2024, unchanged from its previous forecast. Production during 2024 is forecasted to average between 36,000 and 39,000 BOE per day, an increase of 18% at the low end of the range and an increase of 28% at the high end of the range compared to average production of 30,510 BOE per day in 2023. Adjusted funds from operations for 2024 is forecasted to be $292.0 million or 1% higher than the Company's previous forecast of $290.0 million. On December 31, 2024, the Company expects to have net debt of $46.0 million, representing 0.2 times forecasted 2024 adjusted funds from operations.

2024 Guidance

The Company's 2024 capital expenditure budget of $325.0 million includes the drilling of 28 wells and the completion of 32 wells during the year. The 2024 capital expenditures are expected to be allocated as follows: $220.5 million for drilling and completing wells, $84.5 million for facilities, pipeline, and equipment and $20.0 million for land and seismic.

Preparation of the 2024 capital expenditure budget includes the following forecasted average commodity price assumptions (with average 2023 commodity prices shown for comparative purposes):

Commodity Index	**2024 Forecast**	2023	Change
WTI Crude Oil (USD/bbl)	**79.50**	77.63	2%
MSW Crude Oil (CAD/bbl)	**102.35**	100.40	2%
NYMEX Henry Hub Daily Index Natural Gas (USD/MMBtu)	**2.35**	2.53	(7%)
DAWN Gas Daily Index (USD/MMBtu)	**2.30**	2.34	(2%)
AECO NIT 5A Gas Daily Index (CAD/GJ)	**1.87**	2.50	(25%)
STATION 2 Gas Daily Index (CAD/GJ)	**1.81**	2.14	(15%)
Exchange Rate (USD/CAD)	**0.7326**	0.7410	(1%)
Exchange Rate (CAD/USD)	**1.3650**	1.3495	1%

Financial and operating highlights for the Company's 2024 forecast compared to its 2023 results are highlighted in the table below:

Financial and Operating Highlights ($ MM, unless otherwise specified)	**2024 Forecast**	2023	Change
Production [2]			
Oil & NGLs (bbls/d)	**14,000 – 15,500**	11,738	26%
Gas (Mcf/d)	**132,000 – 141,000**	112,634	21%
Combined (BOE/d)	**36,000 – 39,000**	30,510	23%
P&NG Sales [1]	**587.0**	495.6	18%
Adjusted Funds from Operations [1]	**292.0**	276.2	6%
AFFO per share, diluted ($/share) [1]	**1.47**	1.40	5%
Capital Expenditures, net of A&D [1]	**325.0**	282.6	15%
Net Debt, at year-end [1]	**46.0**	13.0	254%
Net Debt / AFFO ratio	**0.2 x**	0.0 x	

Notes:
[1] Refer to advisories regarding "Non-GAAP and Other Financial Measures".
[2] Percent change for production is calculated using the mid-point of each production range.

In its Pouce Coupe/Progress/Spirit River Division, during 2024, Kelt expects to drill and complete six wells targeting Montney or Charlie Lake horizons. At Pouce Coupe West, the Company has drilled three Montney wells on its high gas deliverability land block. Kelt expects to complete these wells in the summer and put them on production early in the third quarter.

Kelt currently has access to approximately 82 MMcf per day of raw gas processing capacity through a plant ownership interest and third-party facility firm service arrangements at Pouce Coupe/Progress/Spirit River. Kelt expects to increase its overall raw gas processing capacity in the area to 117 MMcf per day over the next two years with incremental firm service arrangements, giving the Company access to five different gas plants in the area.

In its Wembley/Pipestone Division, during 2024, Kelt expects to drill and complete 14 wells targeting the Montney horizon. The Company plans to have three multi-well pad development operations consisting of six wells, five wells and three wells respectively as it prepares to add production upon start-up of an incremental 50 MMcf per day of gas processing capacity at a newly constructed third-party gas plant in the fourth quarter of 2024. Kelt expects to frac these 14 wells over the June to October period and may preferentially produce the wells using existing gas plant processing capacity prior to the start-up of the new gas plant.

During the first quarter of 2024, Kelt drilled and completed its third Charlie Lake horizontal well at Wembley/Pipestone with encouraging production results that are similar to its previous wells and with cumulative oil and NGLs of approximately 78% of total production to date.

At Wembley/Pipestone, Kelt expects to increase its firm service raw gas processing capacity from 59 MMcf per day to 124 MMcf per day by 2026. New production additions at Wembley/Pipestone resulting from increased gas processing capacity is expected to increase the Company's oil and NGLs weighting as this production is expected to be 57% to 62% weighted to oil and NGLs.

In its Oak/Flatrock Division, Kelt has drilled an eight well development program that commenced in November 2023. Two of these wells were completed in the first quarter of 2024 and have now been put on production. Three wells are expected to be completed in May 2024 and the remaining three wells are expected to be completed in the summer. Kelt has the ability to increase firm service raw gas processing capacity from 45 MMcf per day to 90 MMcf per day over the next 24 months through gas processing arrangements with a third-party at a gas plant located just south of the Company's Oak property.

Management looks forward to updating shareholders with 2024 second quarter results on or about August 8, 2024.

On behalf of the Board of Directors,

[signed]

David J. Wilson
President and Chief Executive Officer
May 8, 2024

MANAGEMENT'S DISCUSSION & ANALYSIS

Kelt Exploration Ltd. ("Kelt" or the "Company") is an oil and gas company based in Calgary, Alberta, focused on the exploration, development and production of crude oil and natural gas resources in Western Canada. Kelt's business plan is for long-term profitable growth by implementing a full cycle exploration and development program, with emphasis on low-cost land accumulation with the potential for high rates of return on capital invested. Kelt has an active exploration and development drilling program that it may complement with acquisitions and dispositions that optimize its asset base.

The Company was incorporated under the *Business Corporations Act* (Alberta) on October 11, 2012. Kelt's assets are comprised of three core operating divisions, namely: (1) Wembley/Pipestone in Alberta; (2) Pouce Coupe/Progress/Spirit River in Alberta; and (3) Oak/Flatrock in British Columbia. The Company's British Columbia assets are operated by Kelt Exploration (LNG) Ltd. ("Kelt LNG"), a wholly owned subsidiary of Kelt. The head office of the Company is located at Suite 300, 311 - 6th Avenue S.W., Calgary, Alberta T2P 3H2. The Company's common shares are listed on the Toronto Stock Exchange ("TSX") under the symbol "KEL". Additional information relating to Kelt can be found on SEDAR+ at www.sedarplus.ca.

This Management's Discussion and Analysis ("MD&A") is dated May 8, 2024 and should be read in conjunction with the Company's unaudited condensed consolidated interim financial statements and related notes as at and for the three months ended March 31, 2024 and its audited annual consolidated financial statements and MD&A as at and for the year ended December 31, 2023. The accompanying condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board ("IFRS Accounting Standards").

GENERAL ADVISORY

This MD&A contains certain specified financial measures consisting of non-GAAP measures, capital management measures, and supplementary financial measures. These non-GAAP and other financial measures include "funds from operations", "adjusted funds from operations", "adjusted funds from operations per common share", "petroleum and natural gas sales after cost of purchases", "operating income", "operating netback", "capital expenditures, before A&D", "capital expenditures, net of A&D", "net debt (surplus)", "net realized prices", "combined net realized prices", and "net debt (surplus) to adjusted funds from operations ratio" which do not have standardized meanings prescribed by generally accepted accounting principles ("GAAP") and therefore may not be comparable to similar measures presented by other companies where similar terminology is used. For further information and reconciliation to Canadian generally accepted accounting principles "GAAP" measures, see "*Non-GAAP and Other Financial Measures*" in this MD&A.

This MD&A contains forward-looking information within the meaning of applicable Canadian securities laws. The use of and of the words "will", "expects", "believe", "plans", potential", "forecasts" and similar expressions are intended to identify forward-looking statements. Such forward-looking information is based upon certain expectations and assumptions and actual results may differ materially from those expressed or implied by such forward-looking information. For further information regarding the forward-looking information contained herein, including the assumptions underlying such forward-looking information, see *"Advisories Regarding Forward-Looking Statements"* in this MD&A.

BASIS OF PRESENTATION

All dollar amounts are referenced in thousands of Canadian dollars, except when noted otherwise. This MD&A contains various references to the abbreviation BOE which means barrels of oil equivalent. Where amounts are expressed on a BOE basis, natural gas volumes have been converted to oil equivalence at six thousand cubic feet per barrel and sulphur volumes have been converted to oil equivalence at 0.6 long tons per barrel. The term BOE may be misleading, particularly if used in isolation. A BOE conversion ratio of six thousand cubic feet per barrel is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead and is significantly different than the value ratio based on the current price of crude oil and natural gas. This conversion factor is an industry accepted norm and is not based on either energy content or current prices. Such abbreviation may be misleading, particularly if used in isolation.

FINANCIAL AND OPERATING SUMMARY

	Three months ended March 31		
(CA$ thousands, except as otherwise indicated)	**2024**	2023	%

(1) Refer to advisories regarding Non-GAAP and Other Financial Measures.

In the first quarter of 2024, Kelt's financial and operating results are highlighted by the following:

- **Production** – First quarter 2024 production averaged 32,910 BOE per day (37% liquids), an increase of 3% from 31,833 BOE (39% liquids) per day in the first quarter of 2023 and increased by 2% from 32,344 BOE per day (38% liquids) in the fourth quarter of 2023.
- **Petroleum and natural gas sales –** For the three months ended March 31, 2024, petroleum and natural gas sales decreased by 9% compared to the first quarter of 2023. Kelt's combined net realized price before derivative financial instruments of $40.59 per BOE decreased 14% from the first quarter of 2023.
- **Operating netback** – Kelt's operating netback was $21.69 per BOE for the quarter ended March 31, 2024, down 35% from $33.27 per BOE during the quarter ended March 31, 2023. The decrease in the operating netback was primarily due to lower realized prices in 2024.
- **Cash provided by operating activities and adjusted funds from operations** – Cash provided by operating activities decreased to $62.5 million in the first quarter of 2024 compared to $100.2 million in the first quarter of 2023. Adjusted funds from operations of $61.2 million during the three months ended March 31, 2024 ($0.31 per common share, diluted) decreased 34% from the first quarter of 2023 primarily due to a decrease in petroleum and natural gas sales.
- **Net income** – Kelt reported net income of $11.9 million ($0.06 per common share, diluted) for the three months ended March 31, 2024, compared to net income of $16.3 million ($0.08 per common share, diluted) for the three months ended March 31, 2023. The decrease in net income was primarily due to a decrease in derivative financial instruments in 2024 and a decrease in petroleum and natural gas sales due to lower realized prices in 2024.
- **Capital investments** – Capital expenditures, net of A&D, was $80.2 million in the first quarter of 2024 which included the drilling of 8.1 net wells and completion of 3.0 net wells. Facilities, pipeline and well equipment expenditures was $36.0 million for the first quarter of 2024.
- **Liquidity** – The Company ended the quarter with a working capital deficit of $32.0 million, and no borrowings on its credit facility other than letters of credit of $3.1 million.

PRODUCTION

	Three months ended March 31		
(CA$ thousands, except as otherwise indicated)	**2024**	2023	%
Average daily production:			
Oil (bbls/d)	**8,758**	7,752	13
NGLs (bbls/d)	**3,497**	4,627	-24
Gas (Mcf/d)	**123,931**	116,725	6
Combined (BOE/d)	**32,910**	31,833	3
Liquids weighting	**37%**	39%	-5

Average production for the three months ended March 31, 2024 increased 3% compared to the same period in 2023 and increased 2% compared to the average production during the fourth quarter of 2023. The increase in production was primarily due to additional natural gas processing capacity at Wembley/Pipestone following the completion of a third-party plant expansion in the fourth quarter of 2023. The liquids weighting of total production decreased slightly to 37% during the first quarter of 2024 compared to 39% in the comparable period of 2023.

PETROLEUM AND NATURAL GAS SALES ("P&NG SALES")

Kelt Quarterly Petroleum and Natural Gas Sales ($000)

	Three months ended March 31		
(CA$ thousands, except as otherwise indicated)	**2024**	2023	%
Oil	**71,765**	69,211	4
NGLs	**16,603**	23,519	-29
Gas	**33,103**	42,275	-22
Marketing revenue [(1)]	**4,920**	4,566	8
P&NG Sales	**126,391**	139,571	-9
Cost of purchases [(2)]	**(4,835)**	(4,475)	8
P&NG Sales after cost of purchases [(3)(4)(5)]	**121,556**	135,096	-10
Combined net realized price ($/BOE) [(4)(6)]	**40.59**	47.15	-14

(1) Marketing revenue includes the sale of third-party volumes related to the Company's oil blending operations and natural gas activities.

(2) Cost of purchases includes costs for the purchase of third-party volumes related to the Company's oil blending operations and natural gas activities.

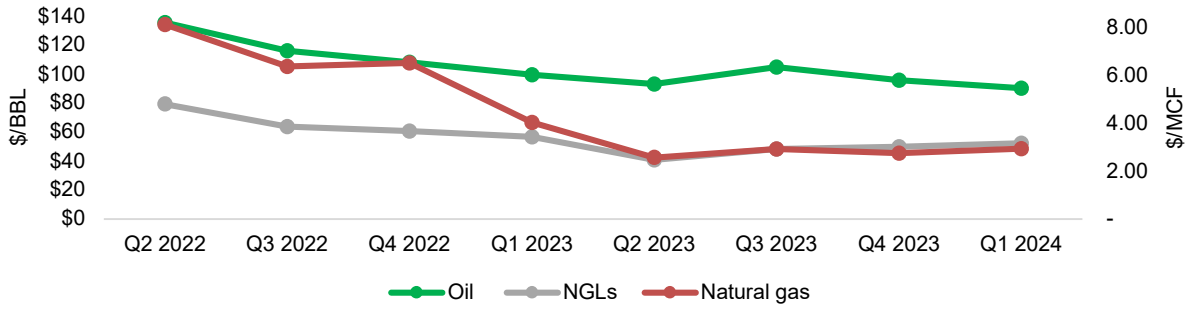
(3) P&NG sales after cost of purchases includes petroleum and natural gas sales, net of the cost of the third-party volumes purchased.

(4) Combined net realized price ($/BOE) equals P&NG sales after cost of purchases divided by total production.

(5) Refer to advisories regarding Non-GAAP and Other Financial Measures.

Petroleum and natural gas sales in the first quarter of 2024 was $126.4 million, down 9% from $139.6 million in the first quarter of 2023. The decrease in P&NG sales from 2023 was due to a decrease in benchmark crude oil, NGLs and natural gas prices resulting in a 14% decrease in the combined net realized price. Natural gas benchmark prices decreased significantly in the second half of 2023 and into 2024 as North American natural gas inventory levels remained elevated compared to historical averages.

Kelt Quarterly Realized Prices (1)



(1) Net realized prices are calculated based on Petroleum and Natural Gas Sales, less the cost of purchases of third-party volumes and reflect Kelt's realized commodity prices plus the net benefit of oil blending and natural gas marketing activities. Net realized prices exclude both realized and unrealized gains and losses on risk management contracts. Refer to additional information under the heading of "Non-GAAP and Other Financial Measures".

(9) Net realized prices are calculated based on Petroleum and Natural Gas Sales, less the cost of purchases of third-party volumes and reflect Kelt's

realized commodity prices plus the net benefit of oil blending and natural gas marketing activities. Net realized prices exclude both realized and unrealized gains and losses on derivative financial instruments. Refer to additional information under the heading of "Non-GAAP and Other Financial Measures".

Combined Net Realized Price

Kelt's combined net realized price decreased 14% to $40.59 per BOE in the first quarter of 2024 versus the comparable period in 2023. The decrease in the average realized price was due to a decrease in benchmark commodity prices in 2024.

Oil prices

The mixed sweet blend benchmark crude oil price decreased by 6% in the quarter ended March 31, 2024 compared to the first quarter of 2023. Benchmark crude oil prices remained relatively range-bound in the first quarter of 2024 as ongoing OPEC+ production curtailments have resulted in a relatively balanced global market for crude oil supply and demand.

NGL prices

NGLs prices are impacted both by benchmark prices, as well as localized market supply and demand issues.

For the three months ended March 31, 2024, Kelt's realized NGLs price decreased 8% compared to the same period in 2023. The decrease in the mixed sweet blend benchmark crude oil price and the Canadian benchmark condensate price resulted in an overall decrease in pentane and butane prices in 2024. The decrease in propane prices was primarily a result of an increase in North American propane production, resulting in an increase in North American propane inventories in 2023 and into 2024. Ethane prices are closely tied to the natural gas benchmark price, with the decrease in ethane prices in 2024 being in-line with the decrease in the benchmark natural gas prices.

Natural gas prices

Kelt's realized natural gas price decreased by 27% to $2.94 per Mcf in the first quarter of 2024 compared to the first quarter of 2023. Benchmark natural gas prices decreased in 2024 primarily due to higher North American natural gas production, and higher than average natural gas storage levels in the second half of 2023 and into 2024.

RISK MANAGEMENT AND HEDGING ACTIVITIES

The Company may enter into fixed price contracts and derivative financial instruments for commodity prices, currency exchange and interest rates in order to secure future cash flows or to protect a desired level of capital spending. Fair value accounting for derivative financial instruments may cause significant fluctuations in the reported amounts of derivative financial instrument assets and liabilities and the resultant magnitude of unrealized gains and losses.

The table below summarizes realized and unrealized gains (losses) on derivative financial instrument contracts:

	Three months ended March 31		
	2024	2023	%
Realized gain (loss)	**(1)**	19,621	-
Unrealized loss	**(6,949)**	(33,853)	-79
Loss on derivative financial instruments	**(6,950)**	(14,232)	-51
$ per BOE	**(2.32)**	(4.97)	-53

Commodity price risk

Inherent to the business of producing oil and gas, the Company's cash provided by operating activities is subject to commodity price risk. Commodity price risk is the risk that future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices are impacted by economic events that dictate the levels of supply and demand as well as the currency exchange rate relationship between the Canadian and U.S. dollar.

As of May 8, 2024, the following commodity price derivative financial instrument contracts are outstanding:

Natural gas derivative financial instrument contracts

Contract Type [1]	Notional Volume	Contract Price $/MMBtu	Remaining Term
NYMEX-AECO 7A basis swap	10,000 MMBtu/d	Monthly AECO basis calculated at 30% of the floating monthly NYMEX price	Apr 24 – Oct 24
NYMEX-AECO 7A basis swap	10,000 MMBtu/d	NYMEX less USD$1.06	Apr 24 – Mar 25
NYMEX-AECO 5A basis swap	20,000 MMBtu/d	NYMEX less USD$1.08	Nov 24 – Mar 25
NYMEX-AECO 5A basis swap	10,000 MMBtu/d	NYMEX less USD$1.15	Nov 24 – Oct 25

(1) NYMEX Henry Hub ("NYMEX")

Crude oil derivative financial instrument swap contracts

Contract Type [1]	Notional Volume	Contract Price	Remaining Term
WTI fixed price swap	1,500 bbl/d	CAD$105.73/bbl	Apr 24 – Jun 24
WTI fixed price swap	1,000 bbl/d	CAD$107.25/bbl	Jul 24 – Sep 24

Crude oil derivative financial instrument option contracts

Contract Type [1]	Notional Volume	Contract Price	Exercise/ expiration date	Term if exercised
Sold WTI call option	500 bbl/d	CAD$102.70/bbl	Jun 28, 2024	Jul 24 – Sept 24
Sold WTI call option	500 bbl/d	CAD$103.50/bbl	Jun 28, 2024	Jul 24 – Sept 24
Sold WTI call option	500 bbl/d	CAD$111.00/bbl	Jun 28, 2024	Jul 24 – Sept 24
Sold WTI call option	500 bbl/d	CAD$105.50/bbl	Sep 30, 2024	Oct 24 – Dec 24
Sold WTI call option	500 bbl/d	CAD$109.00/bbl	Sep 30, 2024	Oct 24 – Dec 24

(1) West Texas Intermediate ("WTI")

In addition to the derivative contracts above, the Company has the following sales contracts for physical delivery:

Natural gas physical delivery contracts

Contract Type	Notional Volume	Contract Price	Remaining Term
AECO-Station 2 basis differential	5,000 GJ/d	AECO 7A less CAD$0.15/GJ	Nov 24 – Mar 25

Interest rate risk

The Company is exposed to interest rate risk as changes in market interest rates will impact the Company's Credit Facility which is subject to a floating interest rate. As at May 8, 2024, there are no interest rate risk management contracts outstanding.

Foreign exchange risk

Kelt is exposed to fluctuations of the Canadian to U.S. dollar exchange rate given realized pricing is directly influenced by U.S. dollar denominated benchmark pricing and from exposure from certain U.S. dollar denominated natural gas marketing arrangements.

As of May 8, 2024, the following foreign exchange risk management contracts are outstanding:

Foreign exchange derivative financial instrument swap contracts

Contract Type	Notional Volume	Contract/Exercise Price	Remaining Term
CAD/USD swap	USD$0.5 million/month	$1.3700 CAD/USD	Apr 24 – Dec 24
CAD/USD swap	USD$2.0 million/month	$1.3790 CAD/USD	Jul 24 – Dec 24
CAD/USD swap	USD$1.0 million/month	$1.3620 CAD/USD	Jan 25 – Dec 25

Foreign exchange derivative financial instrument option contracts				
Contract Type	Notional Volume	Contract/Exercise Price	Exercise/ expiration date	Term if exercised
Sold call option	USD$1.0 million/month	$1.3800 CAD/USD	Dec 31, 2024	Jan 25 – Jun 25
Sold call option	USD$1.0 million/month	$1.3750 CAD/USD	Dec 31, 2024	Jan 25 – Dec 25

ROYALTIES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Royalties	**15,042**	18,292	-18
Average royalty rate [1]	**12.4%**	13.5%	-8
$ per BOE	**5.02**	6.38	-21

(1) The average royalty rate is calculated based on total royalties as a percentage of "P&NG Sales, before marketing revenue" which excludes sales related to the sale of third-party production volumes used in oil blending operations (see table under the heading of *"Petroleum and Natural Gas Sales"*).

Kelt's average royalty rate was 12.4% during the first quarter of 2024, compared to 13.5% during the first quarter of 2023. The decrease in royalties in the first quarter of 2024 was primarily due to a significant decrease in natural gas benchmark prices compared to the first quarter of 2023. For the three months ending March 31, 2024 royalties in British Columbia were reduced through royalty infrastructure credits of $0.5 million compared to royalty infrastructure credits of $0.9 million for the three months ending March 31, 2023.

PRODUCTION EXPENSES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Production expense	**31,220**	32,479	-4
$ per BOE	**10.42**	11.34	-8

The Company incurred production expenses of $31.2 million during the first quarter of 2024, a decrease of 4% from the comparative quarter. Production expenses averaged $10.42 per BOE during the first quarter of 2024, compared to $11.34 per BOE in the same period in 2023. The decrease in production expenses per BOE for the three months ended March 31, 2024 was primarily due to lower field maintenance costs, lower utilities, and lower trucking costs.

TRANSPORTATION EXPENSES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Transportation expense [1]	**10,363**	8,633	20
$ per BOE	**3.46**	3.01	15

(1) Pipeline tariffs are classified as transportation expenses when the Company has firm commitments or contractual arrangements on the pipeline. Pipeline tariffs may also be incurred indirectly by way of deduction from the base price paid by the purchasers of the Company's oil, NGLs and gas sales. In the latter case, and in the absence of a firm contractual obligation on the pipeline, the pipeline tariffs are presented as a reduction of revenue rather than as transportation expense.

Transportation expenses averaged $3.46 per BOE during the first quarter of 2024, an increase of 20% from $3.01 per BOE in the first quarter of 2023. The increase in transportation expense was primarily related to additional volumes of natural gas being exported under a short term contract in the first quarter of 2024.

FINANCING EXPENSES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Total interest expense	**390**	355	10
Accretion of decommissioning obligations	**719**	708	2
Total financing expense	**1,109**	1,063	4
Interest expense per BOE [1]	**0.13**	0.12	8

(1) Interest expense used in the calculation of "Interest expense per BOE" includes interest and fees on bank debt.

The Company periodically drew on its credit facility and incurred standby fees throughout the first quarter of 2024 resulting in interest expense of $0.4 million.

Additional information regarding the credit facility is provided under the heading of *"Capital Resources and Liquidity"*.

GENERAL AND ADMINISTRATIVE ("G&A") EXPENSES

The following table summarizes significant components of the Company's G&A expenses:

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Salaries and benefits	**3,906**	3,713	5
Other G&A expenses	**1,504**	1,676	-10
Gross G&A expenses	**5,410**	5,389	-
Overhead recoveries	**(1,936)**	(2,395)	-19
Net G&A expenses	**3,474**	2,994	16
Gross G&A ($ per BOE)	**1.81**	1.88	-4
Net G&A ($ per BOE)	**1.16**	1.05	10

G&A expenses are reported net of overhead recoveries. Net G&A expenses per BOE increased 10% to $1.16 per BOE in the first quarter of 2024, compared to $1.05 per BOE in the first quarter of 2023. The increase in net G&A expenses per BOE was primarily due to lower overhead recoveries.

SHARE BASED COMPENSATION ("SBC")

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Stock options	**1,226**	1,533	-20
Restricted share units ("RSUs")	**731**	343	113
Total SBC expense	**1,957**	1,876	4
$ per BOE	**0.65**	0.65	-

Total SBC expense for the first quarter of 2024 was consistent with the first quarter of 2023.

As at March 31, 2024, stock options and RSUs outstanding represent 5.5% of total shares outstanding (December 31, 2023 – 5.9%).

DEPLETION AND DEPRECIATION

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Depletion and depreciation expense	**33,867**	32,242	5
$ per BOE	**11.31**	11.25	1

Depletion and depreciation expense was $33.9 million for the quarter ended March 31, 2024 compared to $32.2 million in the same quarter in 2023 primarily due to an increase in production. On a per BOE basis, the depletion and depreciation expense per BOE remained consistent.

Based on its assessment as of March 31, 2024, the Company determined that there were no indicators of impairment for the Alberta CGU and BC CGU and there are no previous impairments available for reversals.

INCOME TAXES

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Deferred income tax expense	**5,697**	5,770	-1
Net income before taxes	**17,544**	22,106	-21
Effective tax expense rate	**32.5%**	26.1%	24

Kelt's consolidated combined federal and provincial statutory tax rate averaged 23.0% during the three months ended March 31, 2024 and 2023. The Company is not expected to have any cash income taxes payable in 2024.

The Company's consolidated tax pools are estimated to be approximately $800.5 million as of March 31, 2024, an increase of 3% from December 31, 2023 as summarized in the table below.

(CA$ thousands, unless otherwise indicated)	Rate	**March 31 2024**	December 31 2023	% change
Canadian oil and gas property expenses ("COGPE")	10-12%	**59,414**	60,905	-2
Canadian development expenses ("CDE")	30-38%	**261,362**	241,162	8
Canadian exploration expenses ("CEE")	100%	**566**	407	39
Undepreciated capital cost (1) ("UCC")	25-31%	**250,529**	230,290	9
Non-capital losses (2) ("NCL")	100%	**228,658**	247,657	-8
Estimated tax deductions available, end of period		**800,529**	780,421	3

(1) The majority of the Company's undepreciated capital cost deductions relate to Class 41 assets, which are deductible at a rate of 25-31% per year.
(2) The Company's non-capital losses expire in years 2033 to 2043.

ADJUSTED FUNDS FROM OPERATIONS

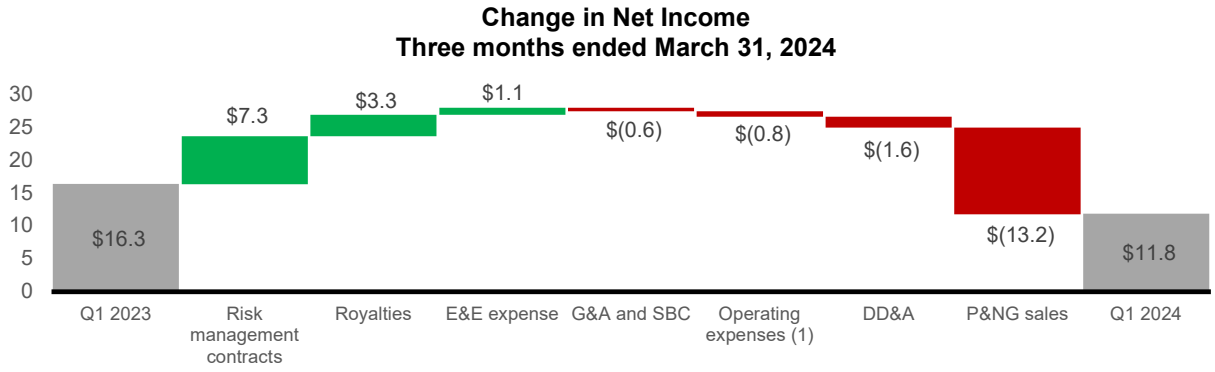
The following table provides a continuity of income and expenses included in the Company's calculation of operating netback and adjusted funds from operations generated during the three month periods ended March 31, 2024 and 2023, respectively.

THREE MONTHS ENDED MARCH 31ST	Amount			$/BOE		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%	**2024**	2023	%
Petroleum and natural gas sales	**126,391**	139,571	-9	**42.20**	48.71	-13
Cost of purchases	**(4,835)**	(4,475)	8	**(1.61)**	(1.56)	3
Realized gain (loss) on derivate financial instruments (1)	**(1)**	19,621	-100	**-**	6.85	-100
Royalties	**(15,042)**	(18,292)	-18	**(5.02)**	(6.38)	-21
Production expense	**(31,220)**	(32,479)	-4	**(10.42)**	(11.34)	-8
Transportation expense	**(10,363)**	(8,633)	20	**(3.46)**	(3.01)	15
Operating netback (2)	**64,930**	95,313	-32	**21.69**	33.27	-35
Financing expense (3)	**(390)**	(355)	10	**(0.13)**	(0.12)	8
G&A expense	**(3,474)**	(2,994)	16	**(1.16)**	(1.05)	10
Gain (loss) on foreign exchange	**35**	(78)	-145	**0.01**	(0.03)	-133
Other income	**75**	114	-34	**0.03**	0.04	-25
Adjusted funds from operations (2)	**61,176**	92,000	-34	**20.44**	32.11	-36
Basic ($ per common share) (4)	**0.31**	0.48	-35			
Diluted ($ per common share) (4)	**0.31**	0.47	-34			

(1) Includes realized gains (losses) on commodity price and foreign exchange derivatives.
(2) Refer to advisories regarding *"Non-GAAP and Other Financial Measures"*.
(3) Excludes non-cash accretion of decommissioning obligation.
(4) Adjusted funds from operations (2) per common share is calculated on a consistent basis with net income per common share, using basic and diluted weighted average common shares as determined in accordance with GAAP.

During the three months ended March 31, 2024, adjusted funds from operations decreased by 34% to $61.2 million ($0.31 per common share, diluted) compared to $92.0 million ($0.47 per common share, diluted) during the first quarter of 2023. Adjusted funds from operations per BOE decreased by 36% to $20.44 per BOE in the first quarter of 2024 from $32.11 per BOE in the first quarter of 2023. The decrease per BOE was primarily due to lower realized commodity prices in 2024, and a realized gain on derivative financial instruments of $19.6 million in 2023.

NET INCOME AND COMPREHENSIVE INCOME



(1) Operating expenses include production expense, transportation expense and cost of purchases

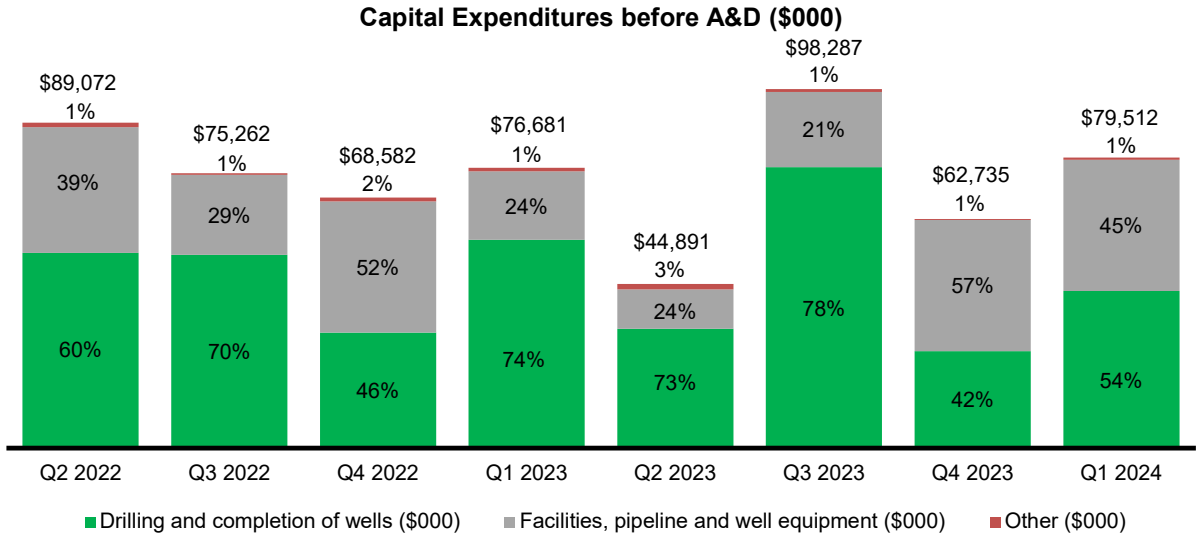
	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Net income and comprehensive income	**11,847**	16,336	-27
$ per common share, basic	**0.06**	0.09	-33
$ per common share, diluted [(1)(2)]	**0.06**	0.08	-25
$ per BOE	**3.97**	5.71	-30
Weighted average shares outstanding, basic (000s)	**194,655**	192,060	1
Weighted average shares outstanding, diluted (000s) [(1)]	**198,285**	195,370	1

(1) The Company uses the treasury stock method to determine the dilutive effect of stock options and RSUs. Under this method, only "in-the-money" dilutive instruments impact the calculation of diluted net income per common share.

Kelt reported net income of $11.9 million ($0.06 per common share, diluted) for the three months ended March 31, 2024, compared to net income of $16.3 million ($0.08 per common share, diluted) during the three months ended March 31, 2023. The decrease in net income in 2024 was primarily due to lower realized commodity prices in 2024, and a realized gain on derivative financial instruments of $19.6 million in 2023. This was offset by an unrealized loss on derivative financial instruments of $33.9 million in 2023 compared to an unrealized loss on derivative financial instruments of $6.9 million in 2024.

INVESTING ACTIVITIES

CAPITAL EXPENDITURES



The Company's capital expenditures, net of acquisitions and dispositions ("A&D"), are summarized in the following table:

	Three months ended March 31		
(CA$ thousands, unless otherwise indicated)	**2024**	2023	%
Capital expenditures:			
Lease acquisition and retention	**144**	463	-69
Geological and geophysical	**193**	460	-58
Drilling and completion of wells	**43,000**	57,038	-25
Facilities, pipeline and well equipment	**35,937**	18,672	92
Corporate assets	**238**	48	396
Capital expenditures, before A&D (1)	**79,512**	76,681	4
Property acquisitions	**1,051**	218	382
Property dispositions	**(382)**	(270)	41
Capital expenditures, net of A&D (1)	**80,181**	76,629	5

(1) Refer to advisories regarding "Non-GAAP and Other Financial Measures".

Capital expenditures, before A&D increased 4% in the first quarter of 2024 compared to the same quarter in 2023. Drilling and completion costs of $43.0 million in the first quarter of 2024 included the drilling of 9.1 net wells (5.0 net Montney wells at Oak, 2.0 net Montney wells at Pouce Coupe, 1.1 net Charlie Lake wells at Wembley and Pouce Coupe, and 1.0 net service well) and the completion of 3.0 net wells (2.0 net Montney wells at Oak and 1.0 net well at Wembley) Kelt's facility, pipeline and well equipment expenditures were $35.9 million in the first quarter of 2024.

	Three months ended March 31		
Gross wells	**2024**	2023	%
Drilling	**10**	9	11
Completion	**3**	7	-57
Service	**1**	1	-

	Three months ended March 31		
Net wells	**2024**	2023	%
Drilling	**8.1**	9.0	-10
Completion	**3.0**	7.0	-57
Service	**1.0**	1.0	-

CAPITAL RESOURCES AND LIQUIDITY

Kelt's objective is to maintain a flexible capital structure that provides sufficient liquidity for the Company to meet its obligations when due and to execute on its capital investment program. The Company manages its capital structure in response to changes in economic conditions and the risk characteristics of its underlying oil and natural gas assets.

At March 31, 2024, the Company has a $100.0 million credit facility available from a syndicate of financial institutions. As at March 31, 2024, there were no borrowings outstanding under the Credit Facility, with outstanding letters of credit of $3.1 million. The Credit Facility may be extended annually at Kelt's option and subject to lender approval, with a 364 day term-out period on amounts drawn if not renewed.

Repayments of principal are not required provided that the borrowings under the facility do not exceed the authorized borrowing amount. The credit facility is subject to semi-annual redeterminations on or before June 30 and November 30 of each year. There are no financial covenants under the Credit Facility and Kelt is in compliance with all other covenants. Covenants include industry standard positive and negative covenants including reporting requirements, permitted indebtedness, permitted risk management activities, permitted encumbrances and other standard business operating covenants. Security is provided for by a demand debenture with a floating charge over all assets in the amount of $800.0 million.

Interest is payable monthly for borrowings through direct advances. Interest rates fluctuate based on the prime rate plus the applicable margin. The applicable margin ranges from 175 basis points to 375 basis points depending upon the Net Debt to Cash Flow ratio of between less than 0.5 times and three times. Under the Credit Facility, borrowings through the use of benchmark loans are also available. Stamping fees fluctuate based on a pricing grid and range from 2.75% to 4.75%, depending upon the Net Debt to Cash Flow ratio of between less than 0.5 times and three times.

Subsequent to March 31, 2024, the Company and its lenders increased the amount available under the credit facility to $150.0 million.

	March 31, 2024	December 31, 2023
Bank debt	**-**	-
Accounts payable and accrued liabilities	**89,182**	85,171
Cash and cash equivalents	**(1,434)**	(14,340)
Accounts receivable and accrued sales	**(51,154)**	(52,646)
Prepaid expenses and deposits	**(4,633)**	(5,188)
Net debt (surplus) [(1)]	**31,961**	12,997
Adjusted funds from operations [(1)(2)]	**245,376**	276,200
Net debt (surplus) to adjusted funds from operations ratio [(1)]	**0.1**	0.0

(1) Refer to advisories regarding Capital Management Measures.

(2) 12-month trailing adjusted funds from operations.

The Company monitors its capital structure and short-term financing requirements using a net debt to adjusted funds from operations ratio, which is a non-GAAP financial measure. Kelt targets a net debt to adjusted funds from operations ratio of less than 2.0 times.

The Company may adjust its future capital structure and capital expenditures according to market conditions to maintain flexibility to achieve its objectives. In doing so, the Company may increase or decrease capital expenditures including acquisitions and dispositions, issue new shares, issue new debt or repay existing debt.

The table below outlines a contractual maturity analysis for Kelt's financial liabilities as at March 31, 2024:

	Within 1 Year	1 to 5 Years	More than 5 Years	**Total**
Accounts payable and accrued liabilities	89,182	-	-	**89,182**
Derivative financial instruments	3,623	599	-	**4,222**
Lease liability	1,108	302	-	**1,410**
Total	**93,913**	**901**	**-**	**94,814**

COMMITMENTS

As of March 31, 2024, the Company is committed to future payments under the following agreements:

(CA$ thousands)	2024	2025	2026	2027	2028	Thereafter
Firm processing commitments	29,046	53,635	63,984	64,093	67,007	473,792
Firm transportation commitments	26,357	37,895	38,473	33,465	32,043	141,158
Total annual commitments	**55,403**	**91,530**	**102,457**	**97,558**	**99,050**	**614,950**

SHARE INFORMATION

The Company is authorized to issue an unlimited number of common shares and an unlimited number of preferred shares. As at March 31, 2024 there were 195.2 million common shares issued and outstanding; there are no preferred shares issued or outstanding.

The Company's common shares trade on the TSX under the symbol "KEL". During the first three months of 2024, 16.5 million common shares traded on the TSX at a weighted average price of $5.71 per common share, down from the volume weighted average trading price of $5.74 per common share during the year ended December 31, 2023.

As at March 31, 2024, officers, directors, and employees have been granted options to purchase 9.4 million common shares of the Company at an average exercise price of $3.76 per common share. In addition, there are 1.4 million RSUs outstanding. Additional information regarding the Company's stock options and RSUs is included in note 8 of the interim financial statements.

OFF-BALANCE SHEET TRANSACTIONS

The Company did not engage in any off-balance sheet transactions during the periods ended March 31, 2024 and 2023.

SUMMARY OF QUARTERLY RESULTS

The following tables summarize the Company's financial and operating results over the past eight quarters:

(CA$ thousands, except as otherwise indicated)	**Q1 2024**	Q4 2023	Q3 2023	Q2 2023	Q1 2023	Q4 2022	Q3 2022	Q2 2022
Revenue	**111,349**	111,062	101,480	102,589	121,279	136,856	126,557	160,786
Cash provided by operating activities	**62,493**	62,477	52,424	68,163	100,160	63,742	85,104	91,623

(1) Refer to advisories regarding *"*Non-GAAP and Other Financial Measures*"*.

(2) In this table, combined net realized prices are after derivative financial instruments.

In 2023 and into the first quarter of 2024, crude oil demand and supply remained relatively balanced, as additional production from non-OPEC countries was offset by OPEC+ production curtailments, resulting in a range bound crude oil benchmark price.

North American benchmark natural gas prices in the first half of 2022 were well supported due to record LNG exports, below average inventory levels and increased North American demand. However, increasing US and Canadian production in 2022, and the shut-in of a US LNG export facility in June 2022 resulted in rising North American inventory levels, and a decrease in North American benchmark natural gas prices in the fourth quarter of 2022 and into 2023. Natural gas prices in 2023 and into the first quarter of 2024 continued to be impacted by high production levels and lower demand from a warmer than average winter resulting in higher than average natural gas inventory levels.

Kelt's business objective is for long-term profitable growth by implementing a full cycle exploration and development program. Over the past eight quarters, Kelt has focused its cash provided from operating activities on its development capital program which has resulted in higher average daily production and adjusted funds from operations.

Refer to the *"Financial and Operating Summary"* section of this MD&A for further discussion. Additional information relating to Kelt, including the Company's MD&A for previous quarters, is filed on SEDAR+ and can be viewed at www.sedarplus.ca.

OUTLOOK AND GUIDANCE

As of the date of this MD&A, management has updated its 2024 guidance from March 7, 2024 to incorporate revised commodity price assumptions and first quarter results.

(CA$ millions, except as otherwise indicated)	**Current 2024 Budget**	**Previous 2024 Guidance (March 7, 2024)**	**% Change to Current 2024 Budget**
Average Production [2]			
Oil and NGLs (bbls/d)	**14,000 – 15,500**	14,250 –15,750	-2
Gas (MMcf/d)	**132.0 – 141.0**	130.5 – 139.5	1
Combined (BOE/d)	**36,000 – 39,000**	36,000 – 39,000	-
Forecasted Average Commodity Prices			
WTI oil price (US$/bbl)	**79.50**	75.00	6
Canadian Light Sweet ($/bbl)	**102.35**	96.66	6
NYMEX natural gas price (US$/MMBtu)	**2.35**	2.60	-10
AECO natural gas price ($/GJ)	**1.87**	2.20	-15
Average Exchange Rate (US$/CA$)	**0.7326**	0.7348	-
Capital Expenditures			
Drilling & completions	**220.5**	225.0	-2
Equipment, Facilities & Pipeline Infrastructure	**84.5**	80.0	6
Land, Seismic and A&D	**20.0**	20.0	-
Capital Expenditures, net of A&D [1]	**325.0**	325.0	-
Petroleum and natural gas sales	**587.0**	583.0	1
Adjusted funds from operations [1]	**292.0**	290.0	1
Per common share, diluted [1]	**1.47**	1.46	1
Net debt (surplus) [1]	**46.0**	48.0	-4
Weighted average common shares outstanding (millions) [1]	**195.2**	194.7	-

(1) Refer to advisories regarding "Non-GAAP and Other Financial Measures".

(2) Percent change for production is calculated on the mid-point of each production range

Kelt's 2024 budget was adjusted slightly to reflect commodity prices and actual results. WTI crude oil prices are forecasted to average US$79.50 per barrel, an increase of 6% from the Company's previous guidance. Forecasted NYMEX natural gas prices have been revised downward by 10% to average US$2.35 per MMBtu. After giving effect to revised commodity price assumptions, adjusted funds from operations for 2024 increased slightly to $292.0 million, from $290.0 million in the previous guidance.

Capital expenditures, net of A&D is estimated at $325.0 million for 2024, consistent with the previous guidance, and net debt at December 31, 2024 is estimated at $46.0 million, a slight decrease from $48.0 million in the previous guidance.

A 10% increase/decrease in the Company's forecasted average oil/NGLs price for the nine months remaining in 2024 would increase/decrease forecasted adjusted funds from operations in 2024 by approximately $25.2 million. A 10% increase/decrease in the Company's average gas price forecasted for the nine months remaining in 2024 would increase/decrease adjusted funds from operations in 2024 by approximately $8.5 million.

SIGNIFICANT JUDGMENTS AND ESTIMATES

The timely preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ materially from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are reviewed and for any future years affected. Significant judgments, estimates and assumptions made by management in these financial statements are outlined in note 2 of the December 31, 2023 audited annual consolidated financial statements.

DISCLOSURE CONTROLS AND PROCEDURES

The Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO") have designed, or caused to be designed under their supervision, disclosure controls and procedures as defined in National Instrument 52-109 of the Canadian Securities Administrators, to provide reasonable assurance that: (i) material information relating to the Company is made known to the CEO and the CFO by others, particularly during the period in which the annual and interim filings are being prepared; and (ii) information required to be disclosed by the Company in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation.

INTERNAL CONTROLS OVER FINANCIAL REPORTING

The CEO and the CFO have designed, or caused to be designed under their supervision, internal controls over financial reporting as defined in National Instrument 52-109 of the Canadian Securities Administrators, in order to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

There were no changes to the Company's internal controls over financial reporting during the interim period from January 1, 2024 to March 31, 2024 that have materially affected, or are reasonably likely to materially affect the Company's internal controls over financial reporting.

Due to its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation relating to the effectiveness in future periods are subject to the risk that controls may become inadequate as a result of changes in conditions, or that the degree of compliance with policies and procedures may deteriorate.

NON-GAAP AND OTHER FINANCIAL MEASURES

This MD&A contains certain non-GAAP financial measures and other specified financial measures, as described below, which do not have standardized meanings prescribed by GAAP and do not have standardized meanings under the applicable securities legislation. As these non-GAAP, and other specified financial measures are commonly used in the oil and gas industry, the Company believes that their inclusion is useful to investors. The reader is cautioned that these amounts may not be directly comparable to measures for other companies where similar terminology is used.

NON-GAAP FINANCIAL MEASURES

P&NG sales after cost of purchases

Throughout this MD&A, reference is made to "P&NG sales" and "P&NG sales after cost of purchases". P&NG sales is as reported in the consolidated financial statements in accordance with GAAP and is before realized gains or losses on derivative financial instruments. P&NG sales after cost of purchases includes P&NG sales (in accordance with GAAP), net of the cost of third-party volumes purchases. P&NG sales after cost of purchases are used by management to assess the Company's sales from its core operations, which the Company believes may be a better indicator of historical and future performance.

See the "Petroleum and Natural Gas Sales" section of this MD&A which provides a reconciliation of "P&NG sales after cost of purchases to P&NG sales.

Net realized price

Net realized price is a non-GAAP measure and is calculated by dividing the Company's P&NG sales after cost of purchases by the Company's production and reflects Kelt's realized selling prices plus the net benefit of oil blending and third-party natural gas sales. In addition to using its own production, the Company may purchase butane and crude oil from third parties for use in its blending operations, with the objective of selling the blended oil product at a premium. Marketing revenue from the sale of third-party volumes is included in P&NG sales as reported in the Consolidated Statement of Net Income and Comprehensive Income in accordance with GAAP. Given the Company's per unit operating statistics disclosed throughout this MD&A are calculated based on Kelt's production volumes, and excludes the sale of third-party marketing volumes, management believes that disclosing its net realized prices based on P&NG sales after cost of purchases is more appropriate and useful, because the cost of third-party volumes purchased to generate the incremental marketing revenue has been deducted.

Combined net realized prices referenced throughout this MD&A are before derivative financial instruments, except as otherwise indicated as being after derivative financial instruments.

See the "Petroleum and Natural Gas Sales" section of this MD&A which provides a reconciliation of the net realized price to P&NG sales, which is a GAAP measure.

Operating income and operating netback

Operating income is a non-GAAP measure calculated by deducting royalties, production expenses and transportation expenses from petroleum and natural gas sales, net of the cost of purchases and after realized gains or losses on derivative financial instruments. The Company also presents operating income on a per BOE basis, referred to as "operating netback" or "operating income per BOE", which allows management to better analyze performance against prior periods, on a comparable basis, and is a key industry performance measure of operational efficiency.

See the "Adjusted Funds from Operations" section of this MD&A which provides a reconciliation of the operating income and operating netback from P&NG sales, which is a GAAP measure.

Capital expenditures

"Capital expenditures, before A&D" and "Capital expenditures, net of A&D" are measures the Company uses to monitor its investment in exploration and evaluation, investment in property plant and equipment, and net investment in acquisition and disposition activities. The most directly comparable GAAP measure is "Cash used in investing activities", and is calculated as follows:

	Three months ended March 31	
(CA$ thousands, except as otherwise indicated)	**2024**	2023
Cash used in investing activities	**76,389**	46,081
Change in non-cash investing working capital	**3,792**	30,548
Capital expenditures, net of A&D	**80,181**	76,629
Property acquisitions	**(669)**	52
Capital expenditures, before A&D	**79,512**	76,681

CAPITAL MANAGEMENT MEASURES

Funds from operations and adjusted funds from operations

Management considers funds from operations and adjusted funds from operations as a key capital management measure as it demonstrates the Company's ability to meet its financial obligations and cash flow available to fund its capital program. Funds from operations and adjusted funds from operations are not standardized measures and therefore may not be comparable with the calculation of similar measures by other entities. The most comparable GAAP measure is "Cash provided by operating activities". Funds from operations and adjusted funds from operations are calculated as follows:

	Three months ended March 31	
	2024	2023
Cash provided by operating activities	**62,493**	100,160
Change in non-cash working capital	**(2,266)**	(8,827)
Funds from operations	**60,227**	91,333
Settlement of decommissioning obligations	**949**	667
Adjusted funds from operations	**61,176**	92,000

Net debt (surplus) and net debt (surplus) to adjusted funds from operations ratio

Management considers net debt (surplus) and net debt (surplus) to adjusted funds from operations ratio as key capital management measures to assess the Company's liquidity at a point in time and to monitor its capital structure and short-term financing requirements. The "net debt (surplus) to adjusted funds from operations ratio" is also indicative of the "net debt to cash flow ratio" calculation used to determine the applicable margin for a quarter under the Company's Credit Facility agreement (though the calculation may not always be a precise match, it is representative).

"Net debt (surplus)" is equal to bank debt, accounts payable and accrued liabilities, net of cash and cash equivalents, accounts receivables and accrued sales and prepaid expenses and deposits. The Company believes that using a "Net debt (surplus)" non-GAAP measure, which excludes non-cash derivative financial instruments, non-cash lease liabilities, and non-cash decommissioning obligations, provides investors with more useful information to understand the Company's cash liquidity risk.

See the "Capital Resources and Liquidity" section of this MD&A for calculation of the Net debt and net debt to adjusted funds from operations ratio.

SUPPLEMENTARY FINANICAL MEASURES

"Production per common share" is calculated by dividing total production by the basic weighted average number of common shares outstanding, as determined in accordance with GAAP.

P&NG sales, cost of purchases, gain (loss) on financial instruments, royalties, production expenses, transportation expenses, financing expenses, gross and net G&A expenses, realized loss (gain) on foreign exchange, other income (expense), share based compensation expense, and depletion and depreciation expense on a $/BOE basis is calculated by dividing the amounts by the Company's total production over the period.

Adjusted funds from operations per share (basic and diluted), and net income and comprehensive income per share (basic and diluted) is calculated by dividing the amounts by the basic weighted average common shares outstanding.

BUSINESS RISKS

The business of exploration, development, production and acquisition of oil and gas reserves involves a number of uncertainties. As a result, the Company is exposed to certain business risks inherent in the oil and gas industry which may impact the Company's operations or financial results. A discussion of business risks, as well as economic and industry factors affecting the Company is included in Kelt's annual MD&A for the year ended December 31, 2023, dated March 7, 2024.

Additional information is included in Kelt's Annual Information Form dated March 7, 2024 which can be found at www.sedarplus.ca.

SUSTAINABILITY STANDARDS

On June 26, 2023 the International Sustainability Standards Board ("ISSB") issued its first two sustainability standards, IFRS S1 and IFRS S2, which deal with general requirements for sustainability disclosure and climate-related disclosure. There are several hurdles before the ISSB standards move from being voluntary to having the force of law in Canada. The Canadian Securities Administrators ("CSA") have indicated that they intend to engage and collaborate with the Canadian Sustainability Standard Board ("CSSB") on a review of the ISSB standards and proposed National Instrument 51-107. Although it is likely the CSSB will start with the ISSB standards, the extent that the final CSSB standards will

differ from those issued by the ISSB is unknown.

Kelt publishes an annual Environmental, Social, and Governance ("ESG") Report, which includes the Company's ESG practices and performance. The latest report, dated May 3, 2023 can be found on the Company's website at www.keltexploration.com. Kelt's ESG report is aligned with the standards set out in the Sustainability Accounting Standards Board, Oil and Gas – Exploration and Production Sustainability Accounting Standard.

ADVISORY REGARDING FORWARD-LOOKING STATEMENTS

The information set out herein is "financial outlook" within the meaning of applicable securities laws. The purpose of this financial outlook is to provide readers with disclosure regarding Kelt's reasonable expectations as to the anticipated results of its proposed business activities for the calendar year 2024. Readers are cautioned that this financial outlook may not be appropriate for other purposes.

Certain information with respect to Kelt contained herein, including management's assessment of future plans and operations, contains forward-looking statements. These forward-looking statements are based on assumptions and are subject to numerous risks and uncertainties, many of which are beyond Kelt's control, including the impact of general economic conditions, industry conditions, volatility of commodity prices, currency exchange rate fluctuations, imprecision of reserve estimates, environmental risks, competition from other explorers, stock market volatility and ability to access sufficient capital. As a result, Kelt's actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any events anticipated by the forward-looking statements will transpire or occur.

In addition, the reader is cautioned that historical results are not necessarily indicative of future performance. The forward-looking statements contained herein are made as of the date hereof and the Company does not intend, and does not assume any obligation, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise unless expressly required by applicable securities laws.

There are numerous uncertainties inherent in estimating quantities of oil, natural gas and NGL reserves, and the future net revenue attributed to such reserves, including many factors beyond the control of Kelt. The reserves and associated future net revenue information set forth in this MD&A are estimates only. In general, estimates of economically recoverable oil, natural gas and NGLs reserves and the future net revenue therefrom are based upon a number of variable factors and assumptions, such as historical production from the properties, production rates, ultimate reserves recovery, the timing and amount of capital expenditures, marketability of oil, natural gas and NGLs, royalty rates, the assumed effects of regulation by governmental agencies and future operating costs, all of which may vary materially from actual results. For these reasons, estimates of the economically recoverable oil, natural gas and NGLs reserves attributable to any particular group of properties, the classification of such reserves based on risk of recovery and estimates of future net revenue associated with reserves prepared by different engineers, or by the same engineer at different times, may vary.

Kelt's actual production, revenue, taxes and development and operating expenditures with respect to its reserves will vary from estimates thereof and such variations could be material. It should not be assumed that the undiscounted or discounted net present value of future net revenue attributable to the Corporation's reserves estimated by the Corporation's independent qualified reserves evaluators represent the fair market value of those reserves. There is no assurance that the forecast prices and costs assumptions will be attained, and variances could be material. Actual oil, natural gas and NGLs reserves may be greater than or less than the estimates provided herein, and variances could be material.

With respect to the disclosure of reserves contained herein relating to portions of Kelt's properties, the estimates of reserves and future net revenue for individual properties may not reflect the same confidence level as estimates of reserves and future net revenue for all properties, due to the effects of aggregation. Unless otherwise stated all references to "reserves" are to Kelt's gross company reserves before deduction of royalties and without including and royalty interests of Kelt. It should not be assumed that the undiscounted or discounted net present value of the Company's reserves, as determined by Sproule, represents the fair value of those reserve estimates.

This MD&A contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may",

“will”, “project”, “should”, “believe”, “plans”, “intends”, “potentially” and similar expressions are intended to identify forward-looking information or statements. In particular, this MD&A contains forward-looking statements pertaining to the following: Kelt’s expected price realizations and future commodity prices; the cost and timing of future capital expenditures and expected results; the Company’s ability to continue accumulating land at a low-cost in its core operating areas and potentially monetize non-core assets; the expected timing of well completions, the expected timing of wells bring brought on-production, the expected timing of facility expenditures, the expected timing of facility start-up dates, the expected timing of production additions from capital expenditures; and the Company's expected future financial position and operating results. Statements relating to "reserves" or “resources” are deemed to be forward looking statements, as they involve the implied assessment, based on certain estimates and assumptions, that the reserves described exist in the quantities predicted or estimated and that the reserves can be profitably produced in the future. Actual reserves may be greater than or less than the estimates provided herein.

Although Kelt believes that the expectations and assumptions on which the forward-looking statements are based are reasonable, undue reliance should not be placed on the forward-looking statements because Kelt cannot give any assurance that they will prove to be correct. Since forward-looking statements address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These include, but are not limited to, the risks associated with the oil and gas industry in general, operational risks in development, exploration and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserve estimates; the uncertainty of estimates and projections relating to production, costs and expenses; failure to obtain necessary regulatory approvals for planned operations; health, safety and environmental risks; uncertainties resulting from potential delays or changes in plans with respect to exploration or development projects or capital expenditures; volatility of commodity prices, currency exchange rate fluctuations; imprecision of reserve estimates; as well as general economic conditions, stock market volatility; the ability to access sufficient water or other fluids needed for completion operations; and the ability to access sufficient capital. We caution that the foregoing list of risks and uncertainties is not exhaustive.

ADDITIONAL INFORMATION

Additional information relating to Kelt, including the Company’s Annual Information Form (“AIF”) dated March 7, 2024 is filed on SEDAR+ and can be viewed on their website at www.sedarplus.ca. Copies of the AIF can also be obtained by contacting Sadiq H. Lalani, Vice President and Chief Financial Officer at Kelt Exploration Ltd., Suite 300, 311 Sixth Avenue SW, Calgary, Alberta, Canada, T2P 3H2. Further information relating to Kelt is also available on its website at www.keltexploration.com.

Cash and cash equivalents, end of period		**1,434**	42,888

The accompanying notes form an integral part of these condensed consolidated interim financial statements.

KELT EXPLORATION LTD.
NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
AS AT AND FOR THE THREE MONTHS ENDED MARCH 31, 2024
[UNAUDITED]

(All tabular amounts in thousands of Canadian dollars, except as otherwise indicated)

1. DESCRIPTION OF THE BUSINESS

Kelt Exploration Ltd. ("Kelt" or the "Company") is an oil and gas company based in Calgary, Alberta, focused on the exploration, development and production of crude oil and natural gas resources, primarily in northwestern Alberta and northeastern British Columbia. The Company's British Columbia assets are operated by Kelt Exploration (LNG) Ltd. ("Kelt LNG"), a wholly owned subsidiary of Kelt. The Company's common shares are listed on the Toronto Stock Exchange ("TSX") under the symbol "KEL".

The head office of Kelt is located at Suite 300, 311 - 6th Avenue S.W., Calgary, Alberta T2P 3H2.

2. BASIS OF PRESENTATION

The Company's Board of Directors approved and authorized these condensed consolidated interim financial statements on May 8, 2024.

a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board ("IFRS Accounting Standards"), applicable to the preparation of interim financial statements, including IAS 34 *Interim Financial Reporting*. Certain disclosures included in the notes to the financial statements have been condensed in the following note disclosures or have been disclosed on an annual basis only. Accordingly, these condensed consolidated interim financial statements should be read in conjunction with the audited annual consolidated financial statements as at and for the year ended December 31, 2023.

b) Basis of measurement

All references to dollar amounts in these financial statements and related notes are thousands of Canadian dollars, unless otherwise indicated.

The financial statements have been prepared on a historical cost basis, except for certain financial instruments which are recorded at fair value. The methods used to measure fair values are described in note 9 of these financial statements.

c) Significant Judgements and Estimates

The timely preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ materially from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are reviewed and for any future years affected. Significant judgments, estimates and assumptions made by management in these financial statements are outlined in note 2 of the December 31, 2023 audited annual consolidated financial statements.

These estimates require assumptions for future commodity prices, exchange rates, interest rates, future oil and natural gas production, and other economic issues that have a high degree of uncertainty.

3. MATERIAL ACCOUNTING POLICIES

The material accounting policies applied by the Company are described in note 3 of the December 31, 2023 audited annual consolidated financial statements. These condensed consolidated interim financial statements as at March 31, 2024 have been prepared following the same accounting policies and methods of computation as the most recent

audited annual consolidated financial statements as at and for the year ended December 31, 2023.

The IASB issued amendments to IAS 1 "Presentation of financial statements" which is effective for annual periods beginning on or after January 1, 2024. The amendments clarified how an entity classifies debt and other financial liabilities as current or non-current in certain circumstances. These amendments to IAS 1 did not have any impact on the Company's financial statements.

Income tax expense for an interim period is based on an estimated average annual effective income tax rate.

4. EXPLORATION AND EVALUATION ASSETS

The following table reconciles movements of exploration and evaluation ("E&E") assets:

	March 31, 2024	December 31, 2023
Balance, beginning of period	**17,162**	16,843
Additions	**337**	6,115
Property acquisitions	**-**	150
Transfers to property, plant and equipment	**(207)**	(4,533)
Exploration and evaluation expense	**(140)**	(1,413)
Balance, end of period	**17,152**	17,162

5. PROPERTY, PLANT AND EQUIPMENT

Net carrying value	**March 31, 2024**	December 31, 2023
Development and production ("D&P") assets	**1,204,695**	1,164,248
Right-of-use ("ROU") assets	**1,553**	1,589
Corporate assets	**604**	575
Total net carrying value of property, plant and equipment	**1,206,852**	1,166,412

The following table reconciles movements of property, plant and equipment ("PP&E") during the period:

Property, plant and equipment, at cost	D&P Assets	Corporate Assets	ROU Assets	Total PP&E
Balance at December 31, 2022	1,764,843	7,153	3,581	1,775,577
Additions	275,724	755	1,036	277,515
Property acquisitions	7,137	-	-	7,137
Property dispositions	(6,920)	-	-	(6,920)
Change in decommissioning obligations	12,676	-	-	12,676
Transfers from E&E	4,533	-	-	4,533
Balance at December 31, 2023	**2,057,993**	**7,908**	**4,617**	**2,070,518**
Additions	**78,937**	**238**	**100**	**79,275**
Property acquisitions	**1,051**	**-**	**-**	**1,051**
Property dispositions	**(382)**	**-**	**-**	**(382)**
Change in decommissioning obligations	**(5,844)**	**-**	**-**	**(5,844)**
Transfers from E&E	**207**	**-**	**-**	**207**
Balance at March 31, 2024	**2,131,962**	**8,146**	**4,717**	**2,144,825**

Accumulated depletion, depreciation and impairment	D&P Assets	Corporate Assets	ROU Assets	Total PP&E
Balance at December 31, 2022	769,379	6,522	2,392	778,293
Depletion and depreciation expense	124,366	811	636	125,813
Balance at December 31, 2023	**893,745**	**7,333**	**3,028**	**904,106**
Depletion and depreciation expense	**33,522**	**209**	**136**	**33,867**
Balance at March 31, 2024	**927,267**	**7,542**	**3,164**	**937,973**

In the first quarter of 2024 the Company closed a non-cash property plant and equipment swap transaction for $0.4 million and in the fourth quarter of 2023 the Company closed a non-cash property plant and equipment swap transaction for $6.5 million.

Future capital costs required to develop proved reserves in the amount of $1,176.2 million (December 31, 2023 – $1,768.4 million) are included in the depletion calculation for development and production assets.

As at March 31, 2024, the Company concluded that there were no indicators of impairment for the Alberta CGU and BC CGU.

6. BANK DEBT

At March 31, 2024, the Company has a $100.0 million credit facility available from a syndicate of financial institutions. As at March 31, 2024, there were no borrowings outstanding under the Credit Facility, with outstanding letters of credit of $3.1 million. The Credit Facility may be extended annually at Kelt's option and subject to lender approval, with a 364 day term-out period if not renewed.

Repayments of principal are not required provided that the borrowings under the facility do not exceed the authorized borrowing amount. The credit facility is subject to semi-annual redeterminations on or before June 30 and November 30 of each year. There are no financial covenants under the Credit Facility and Kelt is in compliance with all other covenants. Covenants include industry standard positive and negative covenants including reporting requirements, permitted indebtedness, permitted risk management activities, permitted encumbrances and other standard business operating covenants. Security is provided for by a demand debenture with a floating charge over all assets in the amount of $800.0 million.

Interest is payable monthly for borrowings through direct advances. Interest rates fluctuate based on the prime rate plus the applicable margin. The applicable margin ranges from 175 basis points to 375 basis points depending upon the Net Debt to Cash Flow ratio of between less than 0.5 times and three times. Under the Credit Facility, borrowings through the use of benchmark loans are also available. Stamping fees fluctuate based on a pricing grid and range from 2.75% to 4.75%, depending upon the Net Debt to Cash Flow ratio of between less than 0.5 times and three times.

Subsequent to the first quarter of 2024, the Company and its lenders increased the amount available under the credit facility to $150.0 million.

7. DECOMMISSIONING OBLIGATIONS

Decommissioning obligations arise as a result of the Company's net ownership interests in petroleum and natural gas assets including well sites, processing facilities and infrastructure. The following table provides a reconciliation of the carrying amount of the obligation associated with the retirement of oil and gas properties:

	March 31, 2024	December 31, 2023
Balance, beginning of period	**99,915**	88,632
Obligations incurred	**1,712**	1,927
Obligations acquired	**-**	265
Obligations settled	**(949)**	(4,538)
Changes in discount rate	**(7,439)**	6,308
Revisions to estimates	**(117)**	4,441
Accretion expense	**719**	2,880
Balance, end of period	**93,841**	99,915
Decommissioning obligations – current	**5,371**	4,360
Decommissioning obligations – non-current	**88,470**	95,555
Key assumptions		
Risk free rate	**3.3%**	3.0%
Inflation rate	**2.0%**	2.0%

The underlying cost estimates are derived from a combination of published industry benchmarks as well as site specific information. As at March 31, 2024 the undiscounted amount of the estimated cash flows required to settle the obligation is $132.5 million (December 31, 2023 – $131.2 million) and is expected to be incurred over the next 50 years. Based on an inflation rate of 2%, the undiscounted amount of the estimated future cash flows required to settle the obligation is $242.5 million at March 31, 2024 (December 31, 2023 – $242.3 million). The inflated future cost estimates are discounted based on a risk-free rate to determine the carrying amounts presented in the table above.

Accretion of the decommissioning obligation due to the passage of time is presented within financing expenses in the Consolidated Statement of Net Income and Comprehensive Net Income (note 11).

8. SHARE CAPITAL

Authorized

The Company is authorized to issue an unlimited number of common shares and an unlimited number of preferred shares, each without par value.

Issued and outstanding

The following table summarizes the change in common shares issued and outstanding. There are no preferred shares issued or outstanding as of March 31, 2024 (December 31, 2023 – nil).

	Number of Shares (000s)	Amount ($ thousands)
Balance at December 31, 2022	192,014	1,162,650
Issued on exercise of stock options	2,145	8,403
Transfer from contributed surplus on exercise of stock options	-	3,429
Released upon vesting of restricted share units	347	983
Balance at December 31, 2023	**194,506**	**1,175,465**
Issued on exercise of stock options	**343**	**1,137**
Transfer from contributed surplus on exercise of stock options	**-**	**516**
Released upon vesting of restricted share units	**369**	**1,208**
Balance at March 31, 2024	**195,218**	**1,178,326**

Stock options

The Incentive Stock Option Plan (the “Option Plan”) includes stock options which may be granted to directors, officers

and employees. The stock options granted pursuant to the Option Plan are to be settled through the issuance of new common shares of the Company which vest in equal tranches over a three year period and have a maximum term of five years to expiry.

The following table summarizes the change in stock options outstanding:

	Number of Options (000s)	Average Exercise Price ($/share)
Balance at December 31, 2022	10,532	3.71
Granted	2,005	4.94
Exercised [1]	(2,145)	3.92
Forfeited	(428)	5.53
Expired	(267)	7.35
Balance at December 31, 2023	**9,697**	**3.74**
Granted	**60**	**5.85**
Exercised [1]	**(343)**	**3.32**
Forfeited	**(51)**	**4.60**
Balance at March 31, 2024	**9,363**	**3.76**

(1) The weighted average share price on the date stock options were exercised during the quarter ended March 31, 2024 was $5.84 per common share ($6.54 per common share on average during the year ended December 31, 2023).

The total fair value of each option granted is estimated on the date of grant using the Black-Scholes option pricing model with weighted average assumptions as follows:

	Three months ended March 31	
	2024	2023
Risk free interest rate	**3.98%**	3.16%
Expected life (years)	**3.0**	3.4
Expected volatility [1]	**50.4%**	67.0%
Expected dividend yield	**0.0%**	0.0%
Expected forfeiture rate	**5.1%**	5.1%
Fair value of options granted during the year ($/share)	**2.20**	2.24

(1) The expected volatility for options granted is estimated based on Kelt's historical share price volatility.

The following table summarizes information regarding stock options outstanding at March 31, 2024:

Range of exercise prices per common share	Number of options outstanding (000s)	Weighted average remaining term (years)	Weighted average exercise price for options outstanding ($/share)	Number of options exercisable (000s)	Weighted average exercise price for options exercisable ($/share)
$0.00 to $2.00	1,554	1.0	1.00	1,554	1.00
$2.01 to $4.00	2,837	1.5	2.75	2,797	2.74
$4.01 to $6.00	4,617	3.3	5.07	2,438	5.15
$6.01 to $8.00	355	4.2	7.00	28	6.33
Total	**9,363**	**2.4**	**3.76**	**6,817**	**3.22**

Restricted share units

The restricted share unit plan includes restricted share units ("RSUs") that may be granted to officers and employees. The RSUs granted under the RSU Plan are to be settled through the issuance of new common shares upon vesting. RSUs vest in two equal tranches with the first half vesting after two years and the second half after three years.

The following table summarizes the change in RSUs outstanding:

	Number of RSUs (000s)
Balance at December 31, 2022	873
Granted	1,284
Released upon vesting	(347)
Forfeited	(68)
Balance at December 31, 2023	**1,742**
Granted	**6**
Released upon vesting	**(369)**
Forfeited	**(17)**
Balance at March 31, 2024	**1,362**

The total fair value associated with stock options and RSUs is recognized over the service period using graded vesting, resulting in share based compensation expense as follows:

	Three months ended March 31	
	2024	2023
Stock options	**1,226**	1,533
Restricted share units	**731**	343
Total share based compensation expense	**1,957**	1,876

Per share amounts

The table below summarizes the weighted average number of common shares outstanding used in the calculation of basic and diluted net income per common share:

	Three months ended March 31	
(000s of common shares)	**2024**	2023
Weighted average common shares outstanding, basic	**194,655**	192,060
Effect of stock options and RSUs	**3,630**	3,310
Weighted average common shares outstanding, diluted	**198,285**	195,370

The treasury stock method is used to determine the dilutive effect of stock options and RSUs. Under this method, only "in-the-money" dilutive instruments impact the calculation of diluted net income per common share.

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments of the Company include cash and cash equivalents, accounts receivable and accrued sales, deposits, accounts payable and accrued liabilities, derivative financial instruments, lease liabilities and bank debt. The Company is exposed to financial risks arising from its financial assets and liabilities that include credit and liquidity risk in addition to the market risks associated with commodity prices, and interest and foreign exchange rates. Net income, cash flows and the fair value of financial assets and liabilities may fluctuate due to movement in market prices or as a result of the Company's exposure to credit and liquidity risks.

The objective of the Company's risk management is to manage and control market risk exposures within acceptable limits, while maximizing long-term returns. All such transactions are conducted in accordance with the Company's risk

management policy that permits management to enter into commodity price agreements, provided that:

i) the contracts are not entered into for speculative purposes;
ii) the total notional quantity hedged, at the time of entering into the contract, does not exceed 65% of average daily production; and
iii) the contracted term does not exceed 36 months.

Commodity price risk

Inherent to the business of producing oil and gas, cash provided by operating activities is subject to commodity price risk. Commodity price risk is the risk that future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices are impacted by economic events that dictate the levels of supply and demand as well as the currency exchange rate relationship between the Canadian and U.S. dollar.

As of March 31, 2024, the following commodity price derivative financial instrument contracts are outstanding:

Natural gas derivative financial instrument contracts

Contract Type (1)	Notional Volume	Contract Price $/MMBtu	Remaining Term
NYMEX-AECO 7A basis swap	10,000 MMBtu/d	Monthly AECO basis calculated at 30% of the floating monthly NYMEX price	Apr 24 – Oct 24
NYMEX-AECO 7A basis swap	10,000 MMBtu/d	NYMEX less USD$1.06	Apr 24 – Mar 25
NYMEX-AECO 5A basis swap	20,000 MMBtu/d	NYMEX less USD$1.08	Nov 24 – Oct 25
NYMEX-AECO 5A basis swap	10,000 MMBtu/d	NYMEX less USD$1.15	Nov 24 – Oct 25

(1) NYMEX Henry Hub ("NYMEX")

Subsequent to March 31, 2024, the Company unwound 20,000 MMBtu/d of its NYMEX less USD$1.08 to AECO 5A basis swap contract for April 2025 to October 2025.

Crude oil derivative financial instrument swap contracts

Contract Type (1)	Notional Volume	Contract Price	Remaining Term
WTI fixed price swap	1,500 bbl/d	CAD$105.73/bbl	Apr 24 – Jun 24
WTI fixed price swap	1,000 bbl/d	CAD$107.25/bbl	Jul 24 – Sep 24

Crude oil derivative financial instrument option contracts

Contract Type (1)	Notional Volume	Contract Price	Exercise/ expiration date	Term if exercised
Sold WTI call option	500 bbl/d	CAD$102.70/bbl	Jun 28, 2024	Jul 24 – Sept 24
Sold WTI call option	500 bbl/d	CAD$103.50/bbl	Jun 28, 2024	Jul 24 – Sept 24
Sold WTI call option	500 bbl/d	CAD$111.00/bbl	Jun 28, 2024	Jul 24 – Sept 24
Sold WTI call option	500 bbl/d	CAD$105.50/bbl	Sep 30, 2024	Oct 24 – Dec 24
Sold WTI call option	500 bbl/d	CAD$109.00/bbl	Sep 30, 2024	Oct 24 – Dec 24

(1) West Texas Intermediate ("WTI")

Interest rate risk

The Company is exposed to interest rate risk as changes in market interest rates will impact the Credit Facility which is subject to a floating interest rate. As at March 31, 2024, there were no amounts drawn on the credit facility and there are no interest rate derivative financial instrument contracts outstanding.

Foreign exchange risk

Kelt is exposed to fluctuations of the Canadian to U.S. dollar exchange rate given realized pricing is directly influenced by U.S. dollar denominated benchmark pricing and from exposure from certain U.S. dollar denominated natural gas

marketing arrangements.

As at March 31, 2024, the following foreign exchange risk management contracts are outstanding:

Foreign exchange derivative financial instrument swap contracts

Contract Type	Notional Volume	Contract/Exercise Price	Remaining Term
CAD/USD swap	USD$0.5 million/month	$1.3700 CAD/USD	Apr 24 – Dec 24
CAD/USD swap	USD$2.0 million/month	$1.3790 CAD/USD	Jul 24 – Dec 24
CAD/USD swap	USD$1.0 million/month	$1.3620 CAD/USD	Jan 25 – Dec 25

Foreign exchange derivative financial instrument option contracts

Contract Type	Notional Volume	Contract/Exercise Price	Exercise/ expiration date	Term if exercised
Sold call option	USD$1.0 million/month	$1.3800 CAD/USD	Dec 31, 2024	Jan 25 – Jun 25
Sold call option	USD$1.0 million/month	$1.3750 CAD/USD	Dec 31, 2024	Jan 25 – Dec 25

Gains and losses on derivative financial instrument contracts

The table below summarizes realized and unrealized gains (losses) on derivative financial instrument contracts:

	Three months ended March 31	
	2024	2023
Realized gain (loss)		
Derivative financial instrument contracts	**(1)**	16,054
Natural gas embedded derivative	**-**	3,567
Total realized gain (loss)	**(1)**	19,621
Unrealized gain (loss)		
Derivative financial instrument contracts	**(6,949)**	(25,464)
Natural gas embedded derivative	**-**	(8,389)
Total unrealized loss	**(6,949)**	(33,853)
Loss on derivative financial instruments	**(6,950)**	(14,232)

Fair value measurements

The Company classifies fair value measurements using a hierarchy that reflects the significance of the inputs used in making the measurements. The Company maximizes the use of observable inputs when preparing calculations of fair value, where possible. Assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the fair value hierarchy. The fair value hierarchy has the following levels:

- Level 1 - Values are based on unadjusted quoted prices available in active markets for identical assets or liabilities as of the reporting date.
- Level 2 - Values are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace. Prices in Level 2 are either directly or indirectly observable as of the reporting date.
- Level 3 - Values are based on prices or valuation techniques that are not based on observable market data.

The fair value of cash and cash equivalents, accounts receivable and accrued sales, deposits, accounts payable and accrued liabilities approximate their carrying value due to the short term to maturity of these instruments. Bank debt bears interest at a floating market rate and accordingly the fair market value of bank debt approximates the carrying amount. Derivative financial instruments are classified as Level 2.

Credit Risk

As at March 31, 2024, the carrying amount of cash and cash equivalents, accounts receivable and accrued sales, deposits, and derivative financial instruments represent the Company's maximum credit exposure. Potential losses are mitigated from this credit exposure by holding cash and cash equivalents with a Canadian chartered bank, and restricting derivative financial instrument transactions to counterparties that are all investment grade. The remaining credit risk exposure arises primarily from receivables from oil and gas marketers and joint venture partners.

The composition of the Company's accounts receivable is set out in the following table:

Accounts receivable and accrued sales	**March 31, 2024**	December 31, 2023
Joint venture partners	**3,770**	3,803
Oil and gas marketers	**42,288**	42,950
GST input tax credits	**2,176**	2,399
Derivative financial instrument contracts	**103**	59
Other	**3,316**	3,951
Expected credit loss provision	**(499)**	(516)
Accounts receivable and accrued sales	**51,154**	52,646

During the quarter ended March 31, 2024, sales to three oil and gas marketers accounted for approximately 13%, 29%, and 33% of total sales. During the year ended December 31, 2023, sales to three oil and gas marketers accounted for approximately 10%, 24%, and 42% of total sales. Credit risk from oil and gas marketers is mitigated through transacting with investment grade rating counterparties in the majority of its oil and gas marketing transactions.

The oil and gas industry has a pre-arranged monthly clearing day for payment of revenues from all buyers of oil and natural gas; this occurs on the 25th day following the month of sale. As a result, production revenues are current. All other accounts receivable are generally contractually due within 30-90 days.

The balance of accounts receivable outstanding for more than 90 days relates primarily to receivables from joint venture partners. Credit risk related to joint venture receivables is mitigated by obtaining partner approval of significant capital expenditures prior to expenditure and in certain circumstances may require cash deposits in advance of incurring financial obligations on behalf of joint venture partners. The Company has the ability to withhold production from joint venture partners in the event of non-payment or may be able to register security on the assets of joint venture partners. As of March 31, 2024, the collection risk on outstanding accounts receivable balances is considered low as less than 1.0% of the accounts receivable balance is outstanding for more than 90 days (December 31, 2023 – less than 1.0%).

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they are due. Financial obligations include accounts payable, derivative financial instruments, lease liabilities and bank debt. Liquidity risk is managed through the budgeting process, which sets out expected debt levels, capital expenditures and funds from operations. In addition, derivative financial instrument contracts may be used to protect future sales. The Board of Directors approves an annual capital expenditure budget, which is regularly monitored and updated as necessary in response to changing capital requirements and expected sales.

The capital intensive nature of Kelt's operations may create a working capital deficiency position during periods with high levels of capital investment. However, the Company targets to maintain sufficient unused bank credit lines or other liquidity to satisfy such working capital deficiencies.

The table below outlines a contractual maturity analysis for Kelt's financial liabilities as at March 31, 2024:

	Within 1 Year	1 to 5 Years	More than 5 Years	**Total**
Accounts payable and accrued liabilities	89,182	-	-	**89,182**
Derivative financial instruments	3,623	599	-	**4,222**
Lease liability	1,108	302	-	**1,410**
Total	**93,913**	**901**	**-**	**94,814**

Capital Management

The Company's capital structure is comprised of shareholders' capital, bank debt and working capital. The Company's objective when managing its capital structure is to maintain financial flexibility in order to meet financial obligations, as well as finance future capital expenditures relating to exploration, development and acquisition activities.

The Company may increase or decrease capital expenditures including acquisitions and dispositions, issue new shares, issue new debt or repay existing debt, if any, according to market conditions in order to maintain its financial flexibility.

Adjusted funds from operations

Management considers adjusted funds from operations as a key capital management measure that demonstrates the Company's ability to meet its financial obligations and cash flow available to fund its capital program. Adjusted funds from operations are not a standardized measure and therefore may not be comparable with the calculation of similar measures by other entities.

Adjusted funds from operations are calculated as follows:

	Three months ended March 31	
	2024	2023
Cash provided by operating activities	**62,493**	100,160
Change in non-cash working capital	**(2,266)**	(8,827)
Settlement of decommissioning obligations	**949**	667
Adjusted funds from operations	**61,176**	92,000

Net debt (surplus) and net debt (surplus) to annualized quarterly adjusted funds from operations ratio

Management considers net debt (surplus) and net debt (surplus) to annualized quarterly adjusted funds from operations ratio as key capital management measures to assess the Company's liquidity at a point in time and to monitor its capital structure and short-term financing requirements. The Company targets net debt (surplus) to annualized quarterly adjusted funds from operations ratio of less than 2.0 times. Net debt (surplus) and net debt (surplus) to annualized quarterly adjusted funds from operations ratio are not standardized measures and therefore may not be comparable with the calculation of similar measures by other entities.

Net debt and net debt to adjusted funds from operations ratio is calculated as follows:

	March 31, 2024	December 31, 2023
Bank debt	**-**	-
Accounts payable and accrued liabilities	**89,182**	85,171
Cash and cash equivalents	**(1,434)**	(14,340)
Accounts receivable and accrued sales	**(51,154)**	(52,646)
Prepaid expenses and deposits	**(4,633)**	(5,188)
Net debt	**31,961**	12,997
Adjusted funds from operations (1)	**245,376**	276,200
Net debt to adjusted funds from operations ratio	**0.1**	0.0

(1) 12-month trailing adjusted funds from operations.

As described in note 6, there are no financial covenants under the Credit Facility agreement and Kelt is in compliance with all other covenants.

10. PETROLEUM AND NATURAL GAS SALES

Kelt sells its oil, natural gas, and NGLs production under variable price contracts. The transaction price is based on a benchmark commodity price, adjusted for quality, location or other factors, whereby each component of the pricing

formula (apart from the benchmark commodity price) can be either fixed or variable, depending on the contract terms. Sales are typically collected on the 25th day of the month following the prior month's production, with sales being recorded once the product is delivered to a contractually agreed upon delivery point.

Kelt generates oil treating, gas processing, and other services income from fees charged to third parties provided at facilities where Kelt has an ownership interest. Marketing revenue is generated from the sales of third-party volumes related to its oil blending and natural gas operations, with the production being sold under the same terms as the variable price contracts discussed above.

Where third party marketers are contracted to deliver natural gas using Kelt's transportation pipeline contracts, title transfer occurs at a different location than the benchmark commodity price location. For the quarter ended March 31, 2024, natural gas sales in relation to these contracts was $4.0 million (March 31, 2023 – $3.1 million).

The following table presents Kelt's sales disaggregated by source:

	Three months ended March 31	
	2024	2023
Oil production	**71,562**	68,950
Oil treating and other	**203**	261
NGLs production	**16,603**	23,519
Gas production	**32,328**	41,349
Gas processing and other	**775**	926
Marketing revenue	**4,920**	4,566
Total petroleum and natural gas sales	**126,391**	139,571

Included in accounts receivable at March 31, 2024 is $42.3 million (December 31, 2023 – $43.0 million) of accrued oil and gas sales related to March 2024 production.

11. FINANCING EXPENSES

The following table summarizes significant components of the Company's financing expenses:

	Three months ended March 31	
	2024	2023
Total interest expense	**390**	355
Accretion of decommissioning obligations [note 7]	**719**	708
Total financing expense	**1,109**	1,063

12. COMMITMENTS

As of March 31, 2024, the Company is committed to future payments under the following agreements:

	2024	2025	2026	2027	2028	Thereafter
Firm processing commitments	29,046	53,635	63,984	64,093	67,007	473,792
Firm transportation commitments	26,357	37,895	38,473	33,465	32,043	141,158
Total annual commitments	**55,403**	**91,530**	**102,457**	**97,558**	**99,050**	**614,950**

13. SUPPLEMENTAL CASH FLOW INFORMATION

	Three months ended March 31	
Changes in non-cash working capital	**2024**	2023
Accounts receivable and accrued sales	**1,492**	18,680
Prepaid expenses and deposits	**555**	816
Accounts payable and accrued liabilities	**4,011**	19,879
Change in non-cash working capital	**6,058**	39,375
Relating to:		
Operating activities	**2,266**	8,827
Investing activities	**3,792**	30,548
Change in non-cash working capital	**6,058**	39,375

During the reporting period, the Company made the following cash outlays in respect of interest and taxes:

	Three months ended March 31	
Cash outlays in respect of interest and taxes	**2024**	2023
Interest and standby fees on bank debt	**256**	468
Taxes [(1)]	**-**	-

(1) Kelt was not required to pay cash income taxes as the Company had sufficient income tax deductions available to shelter taxable income.

ABBREVIATIONS

A&D	Acquisitions and dispositions
AECO	Alberta Energy Company “C” Meter Station of the NOVA Pipeline System

CONVERSION OF UNITS

Imperial = Metric

1 acre = 0.4 hectares

2.5 acres = 1 hectare

1 bbl = 0.159 cubic metres

6.29 bbls = 1 cubic metre

1 foot = 0.3048 metres

3.281 feet = 1 metre

1 Mcf = 28.2 cubic metres

0.035 Mcf = 1 cubic metre

1 mile = 1.61 kilometres

0.62 miles = 1 kilometre

1 MMBtu = 1.054 GJ

0.949 MMBtu = 1 GJ

Natural gas is equated to oil on the basis of

6 Mcf = 1 BOE

Sulphur is equated to gas on the basis of

1LT = 10 Mcf (1 BOE = 0.6 LT)
